Additional cash flow information (Note 11)

### 1. Basis of presentation and new accounting pronouncements

In the opinion of management, the accompanying unaudited interim consolidated financial statements contain all adjustments necessary to present fairly the Company's financial position, results of operations, comprehensive income and cash flows. All such adjustments are of a normal recurring nature.

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements. Actual results may differ from these estimates.

Interim results of operations are not necessarily indicative of the results to be expected for the full fiscal year. The information included in this Form 10-Q should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2013.

*New accounting pronouncements* 

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists ("ASU 2013-11"). ASU 2013-11 requires the netting of unrecognized tax benefits ("UTBs") against a deferred tax asset for a loss or other carryforward that would apply in settlement of the uncertain tax positions. UTBs are required to be netted against all available same-jurisdiction loss or other tax carryforwards that would be utilized, rather than only against carryforwards that are created by the UTBs. ASU 2013-11 is effective for interim and annual periods beginning after December 15, 2013. The adoption of ASU 2013-11 is not expected to have a material impact on the Company's consolidated financial statements.

# 2. Acquisitions

During the first quarter of fiscal 2014, the Company completed two acquisitions. The aggregate consideration for the acquisitions was \$25,509,000. The impact of these acquisitions was not material to the Company's consolidated financial position or results of operations. The Company has not disclosed the pro-forma impact of the fiscal 2014 acquisitions as such impact was not material.

In October 2013, subsequent to the end of the first quarter of fiscal 2014, the Company acquired a controlling interest in MSC Investoren GmbH ("MSC Group"), a European distributor focused on electronic component distribution, embedded computing technology and display solutions in an all cash transaction. MSC Group is a value-added distributor that leverages its unique combination of distribution, production and system integration capability to address the emerging customer demand for more complex electronic products. In calendar year 2012, MSC Group generated sales in excess of \$450,000,000, with embedded computer technology (including display solutions) representing approximately 50% of its sales. The Company expects to acquire the non-controlling interest in MSC Group by the end of the third quarter of fiscal 2014.

Gain on bargain purchase and other

In August 2012, the Company acquired Internix, Inc., a company publicly traded on the Tokyo Stock Exchange, through a tender offer. After assessing the assets acquired and liabilities assumed, the consideration paid was below book value even though the price paid per share represented a premium to the trading levels at that time. During fiscal 2013, the Company recognized a total gain on bargain purchase related to Internix of \$32,679,000 before and after tax and \$0.23 per share on a diluted basis (inclusive of adjustments occurring subsequent to the first quarter of fiscal 2013).

# 3. Goodwill and intangible assets

### Goodwill

The following table presents the change in the goodwill balances by reportable segment for the three months ended September 28, 2013. Substantially all of the accumulated impairment was recognized in fiscal 2009.

	Electronics Marketing				Total
			(Thousands)		
Gross goodwill	\$ 1,646,940	\$	994,082	\$	2,641,022
Accumulated impairment	(1,045,110)		(334,624)		(1,379,734)
Carrying value at June 29, 2013	601,830		659,458		1,261,288

Accumulated impairment	(1,045,110)		(334,624)		(1,379,734)
Carrying value at September 28, 2013	\$ 613,556	\$	676,788	\$	1,290,344

The goodwill additions are a result of businesses acquired during the first quarter of fiscal 2014 (see Note 2) and goodwill adjustments represent the net purchase accounting adjustments for prior period acquisitions during the related measurement periods.

### Intangible Assets

The following table presents the Company's identifiable acquired intangible assets at September 28, 2013 and June 29, 2013, respectively. These balances are included in "other assets" on the consolidated balance sheets and have a weighted average life of approximately 8 years.

	September 28, 2013							June 29, 2013			
	Gross Carrying Amount		Accumulated Amortization		Net Book Value		, ,		Accumulated Amortization		Net Book Value
		(Thousands)									
Customer relationships	\$ 285,945	\$	(119,915)	\$	166,030	\$	276,107	\$	(109,946)	\$	166,161
Trade name	3,162		(1,016)		2,146		3,320		(480)		2,840
Other	3,940		(873)		3,067		4,177		(966)		3,211
	\$ 293,047	\$	(121,804)	\$	171,243	\$	283,604	\$	(111,392)	\$	172,212

Intangible asset amortization expense was \$8,394,000 and \$7,088,000 for the first quarter of fiscal 2014 and 2013, respectively. The following table presents the estimated future amortization expense for the remainder of fiscal 2014, the next five fiscal years and thereafter (in thousands):

#### **Fiscal Year**

Remainder of fiscal 2014	\$ 26,806
2015	34,731
2016	29,049
2017	26,885
2018	15,542
2019	13,764
Thereafter	24,466
Total	\$ 171,243

# 4. External financing

Borrowings due within one year consists of the following:

	Sep	tember 28, 2013		June 29, 2013
		(Thou	<b>(</b> )	
Bank credit facilities	\$	243,329	\$	177,118
Borrowings under the accounts receivable securitization program		328,000		360,000
5.875% Notes due March 15, 2014		299,967		299,950
Other debt due within one year		5,650		1,122
Borrowings due within one year	\$	876,946	\$	838,190

Bank credit facilities consist of various committed and uncommitted lines of credit with financial institutions utilized primarily to support the working capital requirements of foreign operations. The weighted average interest rate on the bank credit facilities was 3.7% and 4.3% at September 28, 2013 and June 29, 2013, respectively.

In August 2013, the Company amended and extended its accounts receivable securitization program (the "Program") with a group of financial institutions to allow the Company to sell, on a revolving basis, an undivided interest of up to \$800,000,000 in eligible receivables while retaining a subordinated interest in a portion of the receivables. The Program does not qualify for sale treatment and, as a result, any borrowings under the Program are recorded as debt on the consolidated balance sheets. The Program contains certain covenants, all of which the Company was in compliance with as of September 28, 2013. The Program has a one-year term that expires in August 2014. Interest on borrowings is calculated using a base rate or a commercial paper rate plus a spread of 0.35%. The facility fee is 0.35%.

Long-term debt consists of the following:

	Sep	otember 28, 2013		June 29, 2013
		(Thou	s)	
6.00% Notes due September 1, 2015	\$	250,000	\$	250,000
6.625% Notes due September 15, 2016		300,000		300,000
5.875% Notes due June 15, 2020		300,000		300,000
4.875% Notes due December 1, 2022		350,000		350,000
2012 Credit Facility		_		6,700
Other long-term debt		4,756		2,879
Subtotal		1,204,756		1,209,579
Discount on notes		(2,453)		(2,586)
Long-term debt	\$	1,202,303	\$	1,206,993

The Company has a five-year \$1.0 billion senior unsecured revolving credit facility (the "2012 Credit Facility") with a syndicate of banks that expires in November 2016. Under the 2012 Credit Facility, the Company may select from various interest rate options, currencies and maturities. The 2012 Credit Facility contains certain covenants, all of which the Company was in compliance with as of September 28, 2013. At September 28, 2013, there were no borrowings outstanding under the 2012 Credit Facility. Letters of credit aggregating \$2,043,000 have been issued under the 2012 Credit Facility, which represent a utilization of borrowing capacity but are not recorded in the consolidated balance sheets as the letters of credit are not debt. At June 29, 2013, there was \$2,309,000 in letters of credit issued under the 2012 Credit Facility.

At September 28, 2013, the carrying value and fair value of the Company's total debt was \$2,079,249,000 and \$2,170,726,000, respectively. Fair value was estimated primarily based upon quoted market prices. At June 29, 2013, the carrying value and fair value of the Company's total debt was \$2,045,183,000 and \$2,130,294,000, respectively.

#### 5. Derivative financial instruments

Many of the Company's subsidiaries, on occasion, purchase and sell products in currencies other than their functional currencies. This subjects the Company to the risks associated with fluctuations in foreign currency exchange rates. The Company reduces this risk by utilizing natural hedging (i.e., offsetting receivables and payables) as well as by creating offsetting positions through the use of derivative financial instruments, primarily forward foreign exchange contracts with maturities of less than sixty days ("economic hedges"). The Company continues to have exposure to foreign currency risks to the extent they are not hedged. The Company adjusts any economic hedges to fair value through the consolidated statements of operations primarily within "other income (expense), net". Therefore, the changes in valuation of the underlying items being economically hedged is offset by the changes in fair value of the forward foreign exchange contracts. The asset or liability representing the fair value of foreign exchange contracts, based upon level 2 criteria under the fair value hierarchy, is classified in the captions "other current assets" or "accrued expenses and other," as applicable, in the accompanying consolidated balance sheets and were not material as of September 28, 2013, and June 29, 2013. The Company did not have material gains or losses related to the forward foreign exchange contracts during the first quarters of fiscal 2014 and fiscal 2013.

The Company generally does not hedge its investments in its foreign operations. The Company does not enter into derivative financial instruments for trading or speculative purposes and monitors the financial stability and credit standing of its counterparties.

# 6. Commitments and contingencies

# Bell

During fiscal 2011, the Company recognized a contingent liability for potential unpaid import duties associated with the acquisition of Bell Microproducts Inc. ("Bell"). Prior to the acquisition of Bell by Avnet, Customs and Border Protection ("CBP") initiated a review of the importing process at one of Bell's subsidiaries and identified compliance deficiencies. Subsequent to the acquisition of Bell by Avnet, CBP began a compliance audit. The Company evaluated projected duties, interest and penalties that potentially may be imposed as a result of the audit and recognized a contingent liability of \$10,000,000, which was recorded to goodwill in fiscal 2011. Depending on the ultimate resolution of the matter with CBP, the Company estimates that the range of

the potential exposure associated with the liability may be up to \$73,000,000; however, the Company believes the contingent liability recorded is a reasonable estimate of the liability based upon the facts available at this time.

#### LCD Class Action Settlement

The Company participated as a claimant in a class action proceeding that sought damages from certain manufacturers of LCD flat panel displays. A settlement was reached in the proceedings and in the first quarter of fiscal 2014 the federal district judge overseeing the proceeding issued an order approving the first distribution of settlement funds to the class claimants. In the first quarter of fiscal 2014, the Company received an award payment of \$19,137,000, which is classified within "gain on legal settlement, bargain purchase and other" in the consolidated statements of operations. The court has deferred distribution of a portion of the settlement and the Company may receive up to an additional \$4,000,000 from the undistributed settlement fund in the future depending on the extent to which subsequent, approved claims are made on the fund.

#### Other

From time to time, the Company may become a party to, or be otherwise involved in various lawsuits, claims, investigations and other legal proceedings arising in the ordinary course of conducting its business. While litigation is subject to inherent uncertainties, management does not anticipate that any ongoing matters will have a material adverse effect on the Company's financial condition, liquidity or results of operations.

#### 7. Income taxes

The Company's effective tax rate on its income before income taxes was 29.8% in the first quarter of fiscal 2014 as compared with 7.9% in the first quarter of fiscal 2013. During the first quarter of fiscal 2014, the Company's effective tax rate was unfavorably impacted primarily by tax rate changes in certain jurisdictions and increases to valuation allowances and reserves, partially offset by losses related to an investment in a foreign subsidiary.

During the first quarter of fiscal 2013, the Company's effective tax rate was favorably impacted primarily by the settlement of an audit by the U.S. Internal Revenue Service, a non-taxable gain on a bargain purchase, and to a lesser extent, by the mix of income earned in lower tax rate jurisdictions, partially offset by increases to valuation allowances and reserves.

### 8. Pension plan

The Company has a noncontributory defined benefit pension plan (the "Plan") for which the components of net periodic pension costs during the quarters ended September 28, 2013 and September 29, 2012 were as follows:

		First Quarters Ended				
	Sep	tember 28, 2013	Sept	ember 29, 2012		
Service cost	\$	9,183	\$	9,230		
Interest cost		4,289		3,663		
Expected return on plan assets		(7,727)		(6,976)		
Recognized net actuarial loss		3,171		3,724		
Amortization of prior service credit		(393)		(393)		
Net periodic pension cost	\$	8,523	\$	9,248		

The Company made contributions of \$20,000,000 to the Plan during the first quarter of fiscal 2014. The Company currently expects to make additional contributions to the Plan of \$10,000,000 in each of the remaining quarters of the fiscal year.

#### 9. Shareholders' equity

Accumulated other comprehensive income (loss)

The following table presents the balances of accumulated other comprehensive income by component at September 28, 2013 and June 29, 2013:

	Sep	tember 28,			
		2013	June 29, 2013		
		(Thousands)			
Accumulated translation adjustments, net	\$	227,342	\$	135,395	
Accumulated pension liability adjustments, net of income taxes		(106,433)		(106,500)	
Total	\$	120,909	\$	28,895	

During the first quarter of fiscal 2014 and fiscal 2013 the reclassifications out of accumulated other comprehensive income into net income were not material.

Share repurchase program

In August 2012, the Company's Board of Directors amended the Company's existing share repurchase program to authorize the repurchase of up to \$750,000,000 of common stock in the open market or through privately negotiated transactions. The timing and actual number of shares purchased will depend on a variety of factors such as price, corporate and regulatory requirements, and prevailing market conditions. During the first quarter of fiscal 2014, the Company did not repurchase any shares under this program. Since the beginning of the repurchase program through the end of the first quarter of fiscal 2014, the Company has repurchased 17,890,000 shares of stock at an aggregate cost of \$525,525,000, and \$224,475,000 remains available for future repurchases under the share repurchase program.

Common stock dividend

In August 2013, the Company's Board of Directors approved a dividend of \$0.15 per common share to the shareholders of record on September 10, 2013. Dividend payments of \$20,620,000 were made in September 2013.

#### 10. Earnings per share

	First Quarters Ended				
	Sep	otember 28, 2013	Sep	otember 29, 2012	
	(Tl	nousands, exce	pt per	share data)	
Numerator:					
Net income	\$	120,624	\$	100,305	
Denominator:					
Weighted average common shares for basic earnings per share		137,414		140,767	
Net effect of dilutive stock options and performance share awards		2,310		2,592	
Weighted average common shares for diluted earnings per share		139,724		143,359	
Basic earnings per share	\$	0.88	\$	0.71	
Diluted earnings per share	\$	0.86	\$	0.70	

Options to purchase 417,692 and 586,000 shares were excluded from the calculation of diluted earnings per share for the three months ended September 28, 2013 and September 29, 2012, respectively, because the exercise price for those options was above the average market price of the Company's shares for those periods and inclusion of these options in the diluted earnings per share calculation would have had an anti-dilutive effect.

#### 11. Additional cash flow information

Interest and income taxes paid in the three months ended September 28, 2013 and September 29, 2012 were as follows:

The Company includes book overdrafts as part of accounts payable on its consolidated balance sheets and reflects changes in such balances as part of cash flows from operating activities in its consolidated statements of cash flows.

During the first quarter of fiscal 2013, the Company received additional proceeds of \$4,500,000, associated with a divestiture completed in a prior year.

#### 12. Segment information

At the beginning of fiscal 2014, the Company began excluding amortization expense associated with acquired intangible assets from the operating income of the Electronics Marketing ("EM") and Technology Solutions ("TS") reportable operating segments ("operating groups") in order to measure such operating results consistent with how many technology companies measure operating performance and given that such amortization expense is non-cash in nature. As a result of this change, the measure of profitability in the information used by our Chief Operating Decision Maker to allocate resources and evaluate profitability of such operating groups also changed. Prior period segment information has been recast to conform to the new measure of profitability used during the first quarter of fiscal 2014. The change in the measure of operating group profitability did not impact the determination of the Company's operating groups or our previously reported consolidated financial results.

At the beginning of fiscal 2014, a portion of the Company's reverse logistics operations, which was previously included in the EM operating group, was combined within the TS operating group. The Company also combined its regional computing components operations within EM and TS into a single global organization within TS. As a result of these changes, sales, operating income and assets previously reported in the EM operating group in fiscal 2013, will be included within the TS operating group in fiscal 2014. The Company does not view the amount of sales, operating income, or assets of such transferred operations to be a material change to the composition of its operating groups for financial reporting purposes. Sales related to such transferred operations reported in the EM operating group in the first quarter of fiscal 2013 were approximately \$120,000,000. The transfer of such operations between operating groups did not impact the determination of the Company's operating groups or our previously reported consolidated financial results.

		First Quarters Ended							
	Sep	September 28, 2013		tember 29, 2012					
		(Thousands)

<sup>&</sup>lt;sup>(2)</sup> Includes sales from Germany of \$718.9 million for the quarter ended September 28, 2013, and sales from Germany and the United Kingdom of \$554.0 million and \$287.7 million, respectively, for the quarter ended September 29, 2012.

Includes property, plant and equipment, net, of \$93.0 million and \$49.0 million in Germany and Belgium, respectively, as of September 28, 2013 and \$92.7 million, \$45.1 million and \$13.1 million, in Germany, Belgium and the United Kingdom, respectively, as of June 29, 2013.

# 13. Restructuring, integration and other charges

#### Fiscal 2014

During the first quarter of fiscal 2014, the Company initiated certain actions in an effort to reduce future operating costs. In addition, the Company incurred integration and other costs primarily associated with recently acquired businesses. The following table presents the restructuring, integration and other charges incurred during the first quarter of fiscal 2014:

	•	nrter Ended mber 28, 2013
	•	ands, except per nare data)
Restructuring costs	\$	5,716
Integration costs		4,157
Other costs including acquisition costs		3,053
Changes in estimate for prior year restructuring reserves, net		(827)
Pre-tax restructuring, integration and other charges	\$	12,099
After tax restructuring, integration and other charges	\$	8,851
Restructuring, integration and other charges per share on a diluted basis	\$	0.06

The activity related to the restructuring activities initiated during fiscal 2014 is presented in the following table:

	Severance Reserves		Facility Exit Costs			Other		Total		
	(Thousands)									
Fiscal 2014 pre-tax restructuring charges	\$	4,202	\$	1,180	\$	334	\$	5,716		
Cash payments		(842)		(18)		_		(860)		
Non-cash charges		_		(515)		(330)		(845)		
Other, principally foreign currency translation		44		6		10		60		
Balance at September 28, 2013	\$	3,404	\$	653	\$	14	\$	4,071		

Severance charges recorded in the first quarter of fiscal 2014 related to the reduction of approximately 80 employees, primarily in sales and business support functions, in connection with cost reduction actions taken in all three regions in both operating groups. Facility exit costs primarily consists of reserves for remaining lease obligations and the write-down of long-lived assets for locations the Company has ceased use of. Other restructuring costs related primarily to other miscellaneous restructuring and exit costs associated with the restructuring actions. Of the \$5,716,000 in restructuring costs recorded during the first quarter of fiscal 2014, \$2,187,000 related to EM, \$2,979,000 related to TS and \$550,000 related to business support functions. As of September 28, 2013, management expects the majority of the remaining severance, facility exit costs and other reserves to be utilized by the end of fiscal 2014.

Integration costs are related to the integration of acquired businesses and incremental costs incurred as part of the consolidation and closure of certain warehouse locations. Integration costs included IT consulting costs for system integration assistance, facility moving costs, legal fees, travel, meeting, marketing and communication costs that were incrementally incurred as a result of the integration activity. Also included in integration costs are incremental salary costs associated with consolidation and closure activities, as well as, costs associated with acquisition activity, primarily related to the acquired businesses' personnel who were retained by Avnet following the close of the acquisitions solely to assist in the integration of the acquired businesses' IT systems and administrative and logistics operations into those of Avnet. These identified personnel have no other meaningful day-to-day operational responsibilities outside of the integration effort. Other costs including acquisition costs consisted primarily of professional fees incurred for acquisitions, as well as other miscellaneous costs that relate to restructuring, integration and other charges.

### Fiscal 2013

During fiscal 2013, the Company incurred restructuring charges related to various restructuring actions intended to reduce costs in response to the then current market conditions. The following table presents the activity during the first three months of fiscal 2014 related to the remaining restructuring reserves established during fiscal 2013:

	Severance Reserves		Facility Exit Costs		Other			Total	
	(Thousands)								
Balance at June 29, 2013	\$	25,254	\$	16,211	\$	370	\$	41,835	
Cash payments		(8,518)		(2,597)		(134)		(11,249)	
Changes in estimate, net		(957)		(128)		437		(648)	
Other, principally foreign currency translation		130		220		(339)		11	
Balance at September 28, 2013	\$	15,909	\$	13,706	\$	334	\$	29,949	

As of September 28, 2013, management expects the majority of the remaining severance and other reserves to be utilized by the end of fiscal 2014 and the remaining facility exit cost reserves to be utilized by the end of fiscal 2017.

### Fiscal 2012 and prior restructuring reserves

As of June 29, 2013, there was \$4,687,000 of restructuring reserves remaining related to restructuring actions taken in fiscal years 2012 and prior, the majority of which relates to facility exit costs. The remaining balance for such historical restructuring actions as of September 28, 2013 was \$4,193,000 the majority of which is expected to be utilized by the end of fiscal 2016.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For a description of the Company's critical accounting policies and an understanding of the significant factors that influenced the Company's performance during the quarter ended September 28, 2013, this *Management's Discussion and Analysis of Financial Condition and Results of Operations* ("MD&A") should be read in conjunction with the consolidated financial statements, including the related notes, appearing in Item 1 of this Report, as well as the Company's Annual Report on Form 10-K for the year ended June 29, 2013.

There are references to the impact of foreign currency translation in the discussion of the Company's results of operations. When the U.S. Dollar strengthens and the stronger U.S. Dollar exchange rates of the current year are used to translate the results of operations of Avnet's subsidiaries denominated in foreign currencies, the resulting impact is a decrease in U.S. Dollars of reported results. Conversely, when the U.S. Dollar weakens and the weaker U.S. Dollar exchange rates of the current year are used to translate the results of operations of Avnet's subsidiaries denominated in foreign currencies, the resulting impact is an increase in U.S. Dollars of reported results. In the discussion that follows, results excluding this impact are referred to as "excluding the translation impact of changes in foreign currency exchange rates" or "constant currency."

In addition to disclosing financial results that are determined in accordance with U.S. generally accepted accounting principles ("GAAP"), the Company also discloses certain non-GAAP financial information, including:

- Income or expense items excluding the translation impact of changes in foreign currency exchange rates, as discussed above.
- Sales adjusted for certain items that impact the year-over-year analysis, which includes the impact of acquisitions by adjusting Avnet's prior periods to include the sales of acquired businesses as if the acquisitions had occurred at the beginning of the earliest period presented. In addition, the prior year sales are adjusted for (i) divestitures by adjusting Avnet's prior periods to exclude the sales of divested businesses as if the divestitures had occurred at the beginning of the earliest period presented, and (ii) the transfer of a portion of Avnet's reverse logistics operations and a regional computing components operations at the beginning of fiscal 2014 from the Electronics Marketing ("EM") operating group to the Technology Solutions ("TS") operating group. Sales taking into account the combination of these adjustments are referred to as "organic sales."
- Operating income excluding (i) restructuring, integration and other charges (see *Restructuring, Integration and Other Charges* in this MD&A) and (ii) amortization of acquired intangible assets.

The reconciliation to GAAP is presented in the following table:

		ıded		
	-	ember 28, 2013	Sept	tember 29, 2012
GAAP operating income	\$	178,987	\$	99,973
Restructuring, integration and other charges		12,099		37,408
Amortization of acquired intangible assets		8,394		7,088
Adjusted operating income	\$	199,480	\$	144,469

Management believes that providing this additional information is useful to the reader to better assess and understand operating performance, especially when comparing results with previous periods or forecasting performance for future periods, primarily because management typically monitors the business both including and excluding these adjustments to GAAP results. Management also uses these non-GAAP measures to establish operational goals and, in some cases, for measuring performance for compensation purposes. However, analysis of results on a non-GAAP basis should be used as a complement to, and in conjunction with, results presented in accordance with GAAP.

#### **OVERVIEW**

#### Organization

Avnet, Inc., incorporated in New York in 1955, together with its consolidated subsidiaries (the "Company" or "Avnet"), is one of the world's largest value-added distributors, based on sales, of electronic components, enterprise computer and storage products, IT services and embedded subsystems. Avnet creates a vital link in the technology supply chain that connects the world's leading electronic component and computer product manufacturers and software developers with a global customer base of original equipment manufacturers ("OEMs"), electronic manufacturing services ("EMS") providers, original design manufacturers ("ODMs"), and value-added resellers ("VARs"). Avnet distributes electronic components, computer products and software, as received from its suppliers or through a customized solution, and offers assembly and other value-added services. In addition, Avnet provides engineering design, materials management and logistics services, system integration and configuration, and supply chain services customized to meet specific requirements of both customers and suppliers.

Avnet has two primary operating groups — EM and TS. Both operating groups have operations in each of the three major economic regions of the world: the Americas; Europe, the Middle East and Africa ("EMEA"); and Asia/Pacific, consisting of Asia, Australia and New Zealand ("Asia" or "Asia/Pac"). A brief summary of each operating group is provided below:

- EM markets and sells semiconductors and interconnect, passive and electromechanical devices ("IP&E") and embedded products for the world's leading electronic component manufacturers. EM markets and sells its products and services to a diverse customer base serving many end-markets including automotive, communications, computer hardware and peripherals, industrial and manufacturing, medical equipment, and defense and aerospace. EM also offers an array of value-added services that help customers evaluate, design-in and procure electronic components throughout the lifecycle of their technology products and systems. By working with EM, customers and suppliers can accelerate their time to market and realize cost efficiencies in both the design and manufacturing process.
- As a leading global IT solutions distributor, TS focuses on the value-added distribution of enterprise computing servers and systems, software, storage, services and complex solutions from the world's foremost technology manufacturers. TS partners with its customers and suppliers to create and deliver effective data center and IT lifecycle solutions that solve the business challenges of end-user customers locally and around the world. TS serves a number of customer segments, from VARs, system integrators ("SIs") and independent software vendors ("ISVs") to the worldwide OEM market for computing technology and non-PC OEMs requiring embedded systems and solutions including engineering, product prototyping, integration and other value-added services. TS also provides the latest hard disk drives, microprocessor, motherboard and DRAM module technologies to manufacturers of general-purpose computers and system builders. TS has dedicated sales and marketing teams serving these customer segments.

#### **Results of Operations**

### **Executive Summary**

Sales for the first quarter of fiscal 2014 were \$6.35 billion. On a year-over-year basis, sales of \$6.35 billion increased as compared with the first quarter of fiscal 2013 sales of \$5.87 billion. Gross profit margin of 11.6% remained essentially flat as compared to the prior year first quarter. EM gross profit margin decreased 51 basis points year over year primarily due to a decline in the EMEA region gross profit margin, partially offset by an increase in gross profit margin in the Americas region. In addition, the regional mix of business impacted EM as the Asia region, which is a lower margin region, represented 42% of EM sales in the first quarter of fiscal 2014 as compared with 39% in the prior year first quarter. The increase in EM Asia sales mix was primarily due to higher growth rates in Asia compared to the western regions. TS gross profit margin increased by 65 basis points year over year as a result of increases in both the Americas and EMEA regions. These increases were driven primarily by an increase in the sales mix of higher margin products and services between the periods.

Consolidated operating income margin was 2.8% in the first quarter of fiscal 2014 as compared with 1.7% in the prior year first quarter. Both periods included restructuring, integration and other charges as well as the amortization of acquired intangible assets. Excluding these charges from both periods, adjusted operating income margin was 3.1% of sales in the first quarter of fiscal 2014 as compared to 2.5% of sales in the prior year first quarter. EM operating income margin, excluding such charges, increased 38 basis points year over year to 4.5%. The increase in EM operating income margin was primarily due to a reduction in operating expenses between the years primarily from the impact of restructuring actions taken in prior periods most, notably in the Americas region, partially offset by the above noted decrease in gross profit margin. TS operating income margin, excluding such charges, increased by 86 basis points year over year to 2.6% primarily due to an increase in gross profit driven by increased sales and gross profit margin between the periods and from cost reduction initiatives implemented in fiscal 2013, partially offset by an increase in operating expenses primarily due to the impact of recent acquisitions as all of the expected cost synergies have not yet been obtained.

### Sales

The table below provides the comparison of reported first quarter fiscal 2014 and 2013 sales for the Company and the EM and TS operating groups to organic sales (as defined previously) to allow readers to better understand and assess the Company's sales performance by operating group and region.

		As Reported and Organic Q1-Fiscal 2014		As Reported Ye		As Reported Year-Year % Change		rganic Sales 1-Fiscal 2013	Organic Year-Year % Change
					(D	ollars in thousand	ls)

<sup>(1)</sup> Includes the following transactions, which impacted the first quarter year-over-year comparison:

Pepperweed Consulting in August 2012 in the TS Americas region

C.R.G. Electronics, Ltd. in August 2012 in the EM EMEA region

Internix, Inc. in August 2012 in the EM Asia region

Tekdata Interconnections, Limited in October 2012 in the EM EMEA region

Magirus AG in October 2012 in the TS EMEA region

Brightstar Partners, Inc., in November 2012 in the TS Americas region

Genilogix in November 2012 in the TS Americas region

Divestiture in December 2012 of a small business in the TS Asia region

TSS Link, Inc. in January 2013 in the TS Americas region

Universal Semiconductor, Inc. in January 2013 in the EM Americas region

RTI Holdings, in April 2013 in the EM Asia region

Divestiture in March 2013 of a small business in the EM Americas region

Seamless Technologies, Inc., in July 2013 in the TS Americas region

Nisko Semiconductors Ltd., in July 2013 in the EM EMEA region

(2) Adjusts reported results for the impact of certain operations transferred from EM to TS in fiscal 2014.

Consolidated sales for the first quarter of fiscal 2014 were \$6.35 billion, an increase of 8.1%, or \$475.4 million, from the prior year first quarter consolidated sales of \$5.87 billion. Organic sales in constant currency increased 3.5% year over year. The organic sales increase in constant currency was primarily due to an increase in sales for EM, partially offset by a decrease in the year-over-year sales for TS.

EM sales of \$3.94 billion in the first quarter of fiscal 2014 increased 7.8% from the prior year first quarter sales of \$3.65 billion. EM organic sales in constant currency increased 8.0% year over year. On a regional basis, the EM Americas organic sales in constant currency increased 1.2% year over year. For EM EMEA, organic sales in constant currency increased 7.7% year over year primarily due to increased sales volumes due to higher demand compared to the first quarter of fiscal 2013, which was adversely impacted by slower growth in the technology end markets. EM Asia organic sales increased 11.1% year over year, which was primarily due to stronger demand in the region between the years.

TS sales of \$2.41 billion in the first quarter of fiscal 2014 increased 8.6% from the prior year first quarter sales of \$2.22 billion. TS organic sales in constant currency, which excludes the impact of acquisitions, the operations transferred from the EM operating group and foreign currency changes, decreased 3.0% year over year primarily due to weaker sales in the TS EMEA region. In the TS EMEA region, year-over-year organic sales in constant currency experienced a 13.1% decline, partially offset by a 2.3% increase in the TS Asia region.

#### **Gross Profit and Gross Profit Margins**

Consolidated gross profit for the first quarter of fiscal 2014 was \$735.2 million, an increase of \$50.8 million, or 7.4%, from the prior year first quarter and an increase of 1.7% on an organic basis in constant currency. Consolidated gross profit margin of 11.6% decreased 7 basis points from the prior year first quarter. EM gross profit margin decreased 51 basis points year over year primarily due to a decline in the EMEA region gross profit margin, partially offset by an increase in the Americas region. In addition, the regional mix of business impacted EM as the Asia region, which is a lower margin region, represented 42% of EM sales in the current year first quarter of fiscal 2014 as compared with 39% in the prior year first quarter. The increase in EM Asia sales mix was primarily due to higher growth rates in Asia compared to the western regions.

TS gross profit margin increased 65 basis points year over year, primarily as a result of increases in both the Americas and EMEA regions. These increases were driven primarily by an increase in the sales mix of higher margin products and services between the periods.

### **Selling, General and Administrative Charges**

Selling, general and administrative expenses ("SG&A expenses") were \$544.1 million in the first quarter of fiscal 2014, a decrease of \$2.9 million, or 0.5%, from the prior year first quarter. This decrease consisted of a net decrease of approximately \$35.0 million primarily related to recent cost reduction initiatives and actions, partially offset by an increase of \$30.7 million related to expenses from acquired businesses and an increase of \$0.9 million related to the translation impact of changes in foreign currency exchange rates between the periods. Metrics that management monitors with respect to its operating expenses are SG&A expenses as a percentage of sales and as a percentage of gross profit. In the first quarter of fiscal 2014, SG&A expenses as a percentage of sales were 8.6% and as a percentage of gross profit were 74.0% as compared with 9.3% and 79.9%, respectively, in the first quarter of fiscal 2013. SG&A expenses, excluding amortization of acquired intangibles, as a percentage of gross profit at EM decreased 427 basis points year over year, primarily due to an increase in gross profit and reduced operating expenses between periods.

SG&A expenses, excluding amortization of acquired intangibles, as a percentage of gross profit at TS decreased by 740 basis points year over year due primarily to an increase in gross profit driven by increased sales and gross profit margin between the periods and from cost reduction initiatives implemented in fiscal 2013, partially offset by an increase in operating expenses primarily due to the impact of recent acquisitions as all of the expected cost synergies have not yet been obtained.

#### Restructuring, Integration and Other Expenses

During the first quarter of fiscal 2014, the Company incurred restructuring costs related to certain actions intended to reduce future operating costs. The Company also incurred integration and other costs including acquisition costs primarily related to costs to acquire and integrate recently acquired businesses. As a result, the Company recorded restructuring, integration and other charges of \$12.1 million during the quarter. Restructuring costs of \$5.7 million consisted of \$4.2 million for severance, \$1.2 million for facility exit costs including long-lived asset write-downs, and \$0.3 million for other restructuring costs. These restructuring actions are expected to result in annual cost savings primarily to operating expenses of approximately \$7.0 million when realized with approximately \$4.0 million and approximately \$3.0 million in savings for the TS and EM operating groups, respectively. Integration costs were \$4.2 million and other costs including acquisition costs were \$3.0 million. The Company also recorded a net benefit of \$0.8 million to adjust remaining reserves related to prior year restructuring actions. The tax-effected impact of restructuring, integration, and other charges was \$8.9 million and \$0.06 per share on a diluted basis.

See Note 13, "Restructuring, integration and other charges" to the Company's consolidated financial statements included in this Quarterly Report on Form 10-Q for additional information related to fiscal 2014 restructuring, integration and other charges.

Comparatively, in the first quarter of fiscal 2013, restructuring, integration and other charges amounted to \$37.4 million. Restructuring costs of \$30.2 million consisted of \$25.9 million for severance, \$4.0 million for facility exit costs and \$0.3 million for other restructuring costs. Integration and other costs including acquisition costs were \$5.0 million and \$2.8 million, respectively. In addition, the Company recorded a net benefit of \$0.6 million to adjust remaining reserves related to prior year restructuring actions. The tax-effected impact of restructuring, integration, and other charges was \$27.1 million and \$0.19 per share on a diluted basis.

# **Operating Income**

During the first quarter of fiscal 2014, the Company had operating income of \$179.0 million, representing a 79.0% increase compared to the prior year first quarter operating income of \$100.0 million. Both periods included restructuring, integration and other charges as described further in *Restructuring*, *Integration and Other Charges*, above. Both periods also included amortization expense associated with acquired intangible assets. Excluding these amounts from both periods, adjusted operating income was \$199.5 million, or 3.1% of sales, in the first quarter of fiscal 2014 as compared with \$144.5 million, or 2.5% of sales, in the prior year first quarter. EM operating income of \$175.8 million increased 17.9% year over year and operating income margin increase in EM operating income margin was primarily due to the increase in gross profit as discussed further above and due to reduced operating expenses from previous restructuring actions. TS operating income of \$62.6 million increased 61.9% year over year and operating income margin increased 86 basis points to 2.6% due primarily to the increase in gross profit as discussed further above and from cost reduction initiatives implemented in fiscal 2013, partially offset by increases in operating expenses as a result of the impact of recent acquisitions. Corporate operating expense were \$38.9 million in the first quarter of fiscal 2014 as compared with \$43.3 million in the first quarter of fiscal 2013.

#### Interest Expense and Other Income (Expense), Net

Interest expense for the first quarter of fiscal 2014 was \$27.0 million, an increase of \$3.1 million or 12.9%, as compared with interest expense of \$23.9 million for the first quarter of fiscal 2013. The increase in interest expense was primarily due to the issuance in November 2012 of \$350.0 million of 4.875% Senior Notes due December 1, 2022, partially offset by less average borrowings under the 2012 Credit Facility and the accounts receivable securitization program between the periods. See *Financing Transactions* for further discussion of the Company's outstanding debt.

During the first quarter of fiscal 2014, the Company recognized \$0.8 million of other income as compared with \$1.5 million in the prior year. The year-over-year decrease in other income is primarily attributable to a reduction in interest income between the periods.

#### Gain on Legal Settlement, Bargain Purchase and Other

During the first quarter of fiscal 2014, the Company received an award payment and recognized a gain on legal settlement of \$19.1 million before tax, \$11.7 million after tax and \$0.08 per share on a diluted basis.

During the first quarter of fiscal 2013, the Company recognized a gain on bargain purchase of \$31.3 million before and after tax and \$0.22 per share on a diluted basis. In August 2012, the Company acquired Internix, Inc. a company publicly traded on the Tokyo Stock Exchange, through a tender offer. After assessing the assets acquired and liabilities assumed, the consideration paid was below the fair value of the acquired net assets and, as a result, the Company recognized a bargain purchase gain.

#### **Income Tax Provision**

The Company's effective tax rate on its income before income taxes was 29.8% in the first quarter of fiscal 2014 as compared with 7.9% in the first quarter of fiscal 2013. During the first quarter of fiscal 2014, the Company's effective tax rate was unfavorably impacted primarily by tax rate changes in certain jurisdictions and increases to valuation allowances and reserves, partially offset by losses related to an investment in a foreign subsidiary.

During the first quarter of fiscal 2013, the Company's effective tax rate was favorably impacted primarily by the settlement of an audit by the U.S. Internal Revenue Service, a non-taxable gain on a bargain purchase, and to a lesser extent, by the mix of income earned in the lower tax rate jurisdictions, partially offset by increases to valuation allowances and reserves.

#### **Net Income**

As a result of the factors described in the preceding sections of this MD&A, the Company's consolidated net income for the first quarter of fiscal 2014 was \$120.6 million, or \$0.86 per share on a diluted basis, as compared with \$100.3 million, or \$0.70 per share on a diluted basis, in the first quarter of fiscal 2013.

# LIQUIDITY AND CAPITAL RESOURCES

#### **Cash Flow**

Cash Flow from Operating Activities

During the first quarter of fiscal 2014, the Company used \$126.2 million of cash from its operating activities as compared to a cash generation of \$81.0 million in the first quarter fiscal 2013. These results are comprised of: (i) cash flow generated from net income, excluding non-cash and other reconciling items, which includes depreciation and amortization expense, deferred income taxes, stock-based compensation expense and other non-cash items (primarily, provision for doubtful accounts and periodic pension costs) and (ii) cash flow used for, or generated from, working capital and other, excluding cash and cash equivalents. Cash utilized by working capital and other was \$328.2 million during the first quarter of fiscal 2014, including a decrease in accounts payable of \$128.0 million, a decrease in accrued liabilities and other of \$69.7 million, and an increase in inventory of \$220.2 million, partially offset by a decrease in accounts receivable of \$89.7 million. The increase in inventory from the end of fiscal 2013 is primarily due to the inventory on hand at the end of fiscal 2013 being lower than historical inventory levels at the end of previous fiscal years. Inventory days outstanding was essentially flat from the end of fiscal 2013. Additionally, net days outstanding have not changed significantly as there has not been a significant change in payment terms provided to customers nor have customers significantly changed their payment patterns. Comparatively, cash utilized by working capital and other changes was \$47.2 million during the first quarter of fiscal 2013, including decreases in payables, receivables and inventory of \$382.9 million, \$277.7 million and \$102.7 million, respectively.

# Cash Flow from Financing Activities

During the first quarter of fiscal 2014, the Company received net proceeds of \$67.8 million from borrowings of bank and other debt and made net repayments of \$32.0 million under the Company's accounts receivable securitization program. During the first quarter of fiscal 2014, the Company used \$20.6 million of cash to pay a cash dividend on common stock. During the first quarter of fiscal 2013, the Company received net proceeds of \$172.1 million primarily from borrowings under the accounts receivable securitization program and bank and other debt. In addition, the Company used \$128.7 million of cash to repurchase common stock under the share repurchase program authorized by the Company's Board of Directors (see *Part II*, *Item 2. Unregistered Sales of Equity Securities and Use of Proceeds* in this Form 10-Q).

### Cash Flow from Investing Activities

During the first quarter fiscal 2014, the Company used \$21.0 million of cash for acquisitions, net of cash acquired. During the first quarter of fiscal 2014, the Company used \$27.4 million for capital expenditures primarily related to information system development costs and computer hardware and software purchases. During the first quarter of fiscal 2013, the Company used \$87.2 million of cash for acquisitions, net of cash acquired, received proceeds of \$4.5 million for a divestiture completed in a prior year and used \$24.4 million for capital expenditures primarily related to information system development costs and computer hardware and software expenditures.

#### **Capital Structure and Contractual Obligations**

The following table summarizes the Company's capital structure as of the end of the first quarter of fiscal 2014 with a comparison to the end of fiscal 2013:

	Sej	ptember 28, 2013	% of Total Capitalization		June 29, 2013	% of Total Capitalization			
		(Dollars in thousands)							
Borrowings due within one year	\$	876,946	13.3%	\$	838,190	13.2%			
Long-term debt		1,202,303	18.3		1,206,993	19.1			
Total debt		2,079,249	31.6		2,045,183	32.3			
Shareholders' equity		4,495,473	68.4		4,289,125	67.7			
Total capitalization	\$	6,574,722	100.0%	\$	6,334,308	100.0%			

For a description of the Company's long-term debt and lease commitments for the next five years and thereafter, see *Long-Term Contractual Obligations* appearing in Item 7 of the Company's Annual Report on Form 10-K for the year ended June 29, 2013. With the exception of the Company's debt transactions discussed herein, there are no material changes to this information outside of normal lease payments.

The Company does not currently have any material commitments for capital expenditures.

### **Financing Transactions**

The Company has a five-year \$1.0 billion senior unsecured revolving credit facility (the "2012 Credit Facility") with a syndicate of banks that expires in November 2016. Under the 2012 Credit Facility, the Company may elect from various interest rate options, currencies and maturities. As of the end of the first quarter of fiscal 2014, there were no borrowings outstanding under the 2012 Credit Facility. Letters of credit aggregating to \$2.0 million have been issued under the 2012 Credit Facility, which represent the utilization of borrowing capacity but are not recorded in the consolidated balance sheets as the letters of credit are not debt. As of June 29, 2013, there were \$6.7 million in borrowings outstanding and \$2.3 million in letters of credit issued.

In August 2013, the Company amended and extended its accounts receivable securitization program (the "Program") with a group of financial institutions to allow the Company to sell, on a revolving basis, an undivided interest of up to \$800.0 million in eligible receivables while retaining a subordinated interest in a portion of the receivables. The Program does not qualify for sale treatment and, as a result, any borrowings under the Program are recorded as debt on the consolidated balance sheets. The Program has a one-year term that expires in August 2014. There were \$328.0 million and \$360.0 million in borrowings outstanding under the Program at September 28, 2013 and June 29, 2013, respectively.

Notes outstanding at September 28, 2013 consisted of:

- \$300.0 million of 5.875% Notes due March 15, 2014
- \$250.0 million of 6.00% Notes due September 1, 2015
- \$300.0 million of 6.625% Notes due September 15, 2016
- \$300.0 million of 5.875% Notes due June 15, 2020
- \$350.0 million of 4.875% Notes due December 1, 2022

In addition to its primary financing arrangements discussed above, the Company has several small lines of credit in various locations to fund the short-term working capital, foreign exchange, overdraft and letter of credit needs of its wholly owned subsidiaries in EMEA, Asia, Latin America and Canada. Avnet generally guarantees its subsidiaries' obligations under these facilities.

See Liquidity below for further discussion of the Company's availability under these various facilities.

#### **Covenants and Conditions**

The 2012 Credit Facility contains certain covenants with various limitations on debt incurrence, share repurchases, dividends, investments and capital expenditures and also includes financial covenants requiring the Company to maintain minimum interest coverage and leverage ratios.

The Program requires the Company to maintain certain minimum interest coverage and leverage ratios in order to continue utilizing the Program. The Program also contains certain covenants relating to the quality of the receivables sold. If these conditions are not met, the Company may not be able to borrow any additional funds and the financial institutions may consider this an amortization event, as defined in the agreement, which would permit the financial institutions to liquidate the accounts receivables sold to cover any outstanding borrowings. Circumstances that could affect the Company's ability to meet the required covenants and conditions of the Program include the Company's ongoing profitability and various other economic, market and industry factors.

Management does not believe that the covenants under the 2012 Credit Facility or the Program limit the Company's ability to pursue its intended business strategy or future financing needs. The Company was in compliance with all covenants of the 2012 Credit Facility and the Program as of September 28, 2013.

### Liquidity

As of the end of the first quarter of fiscal 2014, the Company had a combined total borrowing capacity of \$1.8 billion under the 2012 Credit Facility and the Program. There were no borrowings outstanding and \$2.0 million in letters of credit issued under the 2012 Credit Facility and \$328.0 million outstanding under the Program, resulting in approximately \$1.5 billion of availability as of September 28, 2013. During the first quarter of fiscal 2014, the Company had an average daily balance outstanding under the 2012 Credit Facility of approximately \$5.0 million and approximately \$413.0 million under the Program. During the first quarter of fiscal 2013, the Company had an average daily balance outstanding under the 2012 Credit Facility of approximately \$180.0 million and approximately \$710.0 million under the Program.

The Company had cash and cash equivalents of \$865.6 million as of September 28, 2013, of which \$789.8 million was held outside the U.S. As of June 29, 2013, the Company had cash and cash equivalents of \$1.01 billion, of which \$918.4 million was held outside of the U.S. Liquidity is subject to many factors, such as normal business operations as well as general economic, financial, competitive, legislative, and regulatory factors that are beyond the Company's control. Cash balances generated and held in foreign locations are used for on-going working capital, capital expenditure needs and to support acquisitions. These balances are currently expected to be permanently reinvested outside the U.S. If these funds were needed for general corporate use in the U.S., the Company would incur significant income taxes to repatriate cash held in foreign locations but only to the extent the repatriated cash is in excess of outstanding intercompany loans due to Avnet, Inc. from foreign subsidiaries. In addition, local government regulations may restrict the Company's ability to move funds among various locations under certain circumstances. Management does not believe such restrictions would limit the Company's ability to pursue its intended business strategy.

During the first quarter of fiscal 2014, the Company utilized \$21.0 million of cash, net of cash acquired, for acquisitions. The Company has made, and expects to continue to make, strategic investments through acquisition activity to the extent the investments strengthen Avnet's competitive position and/or meet management's return on capital thresholds. During the second quarter of fiscal 2014, the Company has committed to utilize cash in connection with the acquisition of MSC Group, a European distributor focused on electronic component distribution, embedded computing technology and display solutions.

In addition to continuing to make investments in acquisitions, as of September 28, 2013, the Company may repurchase up to an aggregate of \$224.5 million of shares of the Company's common stock through a \$750.0 million share repurchase program approved by the Board of Directors in prior years. The Company plans to repurchase stock from time to time at the discretion of management, subject to strategic considerations, market conditions and other factors. The Company may terminate or limit the share repurchase program at any time without prior notice. The timing and actual number of shares purchased will depend on a variety of factors such as share price, corporate and regulatory requirements, and prevailing market conditions. Since the beginning of the repurchase program through the end of the first quarter of fiscal 2014, the Company has repurchased 17.9 million shares of stock at an aggregate cost of \$525.5 million. (See *Part II*, *Item 2. Unregistered Sales of Equity Securities and Use of Proceeds* in this Form 10-Q for further information.) Shares repurchased were retired. Additionally, the Company currently expects to pay quarterly cash dividends on shares of its common stock, subject to approval of the Board of Directors. During the first quarter of fiscal 2014, the Board of Directors approved a dividend of \$0.15 per share, which was paid in September 2013 in the aggregate amount of \$20.6 million.

During periods of weakening demand in the electronic component and enterprise computer solutions industry, the Company typically generates cash from operating activities. Conversely, the Company is also more likely to use operating cash flows for

working capital requirements during periods of higher growth. During the first quarter of fiscal 2014, the Company used \$126.2 million of cash from operations as working capital increased and generated \$489.0 million of cash from operations over the trailing twelve month period. Management believes that Avnet's available borrowing capacity, its current cash on hand and the Company's expected ability to generate operating cash flows in the future are sufficient to meet its projected financing needs. The Company also may issue debt or equity securities and management believes the Company will have adequate access to the capital markets, if needed.

# COMPARATIVE ANALYSIS — LIQUIDITY (Dollars in millions)

The following table highlights the Company's liquidity and liquidity ratios as of the end of the first quarter of fiscal 2014 with a comparison to the end of fiscal 2013:

	September 28, 2013	June 29, 2013	Percentage Change
Current Assets	8,418.8	8,356.9	0.7 %
Quick Assets	5,685.7	5,878.3	(3.3)
Current Liabilities	4,719.6	4,821.4	(2.1)
Working Capital (1)	3,699.2	3,535.4	4.6
Total Debt	2,079.2	2,045.2	1.7
Total Capital (total debt plus total shareholders' equity)	6,574.7	6,334.3	3.8
Quick Ratio	1.2:1	1.2:1	
Working Capital Ratio	1.8:1	1.7:1	
Debt to Total Capital	31.6%	32.3%	

<sup>(1)</sup> This calculation of working capital is defined as current assets less current liabilities.

The Company's quick assets (consisting of cash and cash equivalents and receivables) decreased 3.3% since the end of fiscal 2013 due to decreases in cash and cash equivalents and receivables. These factors, when combined with an increase in inventory, led to an increase in current assets of 0.7%. Current liabilities decreased 2.1% primarily due to decreases in accounts payable and accrued expenses. The increase in current assets and the decrease in current liabilities was partially offset by the impact of the change in foreign currency exchange spot rates since the end of fiscal 2013. As a result of the factors noted above, total working capital increased by 4.6% during the first quarter of fiscal 2014. Total debt increased by 1.7%, primarily due to the increase in borrowings of bank credit facilities, total capital increased by 3.8% and the debt to total capital ratio decreased as compared with June 29, 2013 to 31.6%.

### **Recently Issued Accounting Pronouncements**

See Note 1, "Basis of presentation and new accounting pronouncements" to the Company's consolidated financial statements included in this Quarterly Report on Form 10-Q for Recently Issued Accounting Pronouncements.

# Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company seeks to reduce earnings and cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements from time to time, which are intended to provide a hedge against all or a portion of the risks associated with such volatility. The Company continues to have exposure to such risks to the extent they are not hedged.

See Item 7A, *Quantitative and Qualitative Disclosures About Market Risk*, in the Company's Annual Report on Form 10-K for the year ended June 29, 2013 for further discussion of market risks associated with interest rates and foreign currency exchange. Avnet's exposure to foreign exchange risks has not changed materially since June 29, 2013 as the Company continues to hedge the majority of its foreign exchange exposures. Thus, any increase or decrease in fair value of the Company's foreign exchange contracts is generally offset by an opposite effect on the related hedged position.

See *Liquidity and Capital Resources* — *Financing Transactions* appearing in Item 2 of this Form 10-Q for further discussion of the Company's financing facilities and capital structure. As of September 28, 2013, 76% of the Company's debt bears interest at a fixed rate and 24% of the Company's debt bears interest at variable rates. Therefore, a hypothetical 1.0% (100 basis points)

increase in interest rates would result in a \$1.2 million decrease in income before income taxes in the Company's consolidated statement of operations for the quarter ended September 28, 2013.

#### Item 4. Controls and Procedures

The Company's management, including its Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the reporting period covered by this quarterly report on Form 10-Q. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report on Form 10-Q, the Company's disclosure controls and procedures are effective such that material information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

During the first quarter of fiscal 2014, the Company implemented an ERP system to support businesses in the EMEA region and a global financial reporting and consolidation application. These implementations have resulted in changes to certain internal controls over financial reporting. The Company performed pre- and post-implementation procedures to ensure the effectiveness of the internal controls over financial reporting. There were no other changes to the Company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

#### PART II

#### OTHER INFORMATION

### Item 1. Legal Proceedings

As a result primarily of certain former manufacturing operations, Avnet has incurred and may have future liability under various federal, state and local environmental laws and regulations, including those governing pollution and exposure to, and the handling, storage and disposal of, hazardous substances. For example, under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA") and similar state laws, Avnet is and may be liable for the costs of cleaning up environmental contamination on or from certain of its current or former properties, and at off-site locations where the Company disposed of wastes in the past. Such laws may impose joint and several liability. Typically, however, the costs for clean up at such sites are allocated among potentially responsible parties based upon each party's relative contribution to the contamination, and other factors.

Pursuant to SEC regulations, including but not limited to Item 103 of Regulation S-K, the Company regularly assesses the status of and developments in pending environmental legal proceedings to determine whether any such proceedings should be identified specifically in this discussion of legal proceedings, and has concluded that no particular pending environmental legal proceeding requires public disclosure. Based on the information known to date, management believes that the Company has appropriately accrued in its consolidated financial statements for its share of the estimated costs associated with the environmental clean up of sites in which the Company is participating.

The Company and/or its subsidiaries are also parties to various other legal proceedings arising from time to time in the normal course of business. While litigation is subject to inherent uncertainties, management currently believes that the ultimate outcome of these proceedings, individually and in the aggregate, will not have a material adverse effect on the Company's financial position, cash flows or results of operations.

#### Item 1A. Risk Factors

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended, with respect to the financial condition, results of operations and business of the Company. You can find many of these statements by looking for words like "believes," "plans," "expects," "anticipates," "should," "will," "may," "estimates" or similar expressions in this Report or in documents incorporated by reference in this Report. These forward-looking statements are subject to numerous assumptions, risks and uncertainties. You should understand that the following important factors, in addition to those discussed elsewhere in this Quarterly Report and in the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2013, could affect the Company's future results, and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements:

- · the effect of global economic conditions, including the current global economic uncertainty;
- competitive pressures among distributors of electronic components and computer products;
- cyclicality in the technology industry, particularly in the semiconductor sector;
- · relationships with key suppliers and allocations of products by suppliers;
- risks relating to the Company's international sales and operations, including risks relating to the ability to repatriate funds, foreign currency fluctuations, duties and taxes, and compliance with international and U.S. laws;
- risks relating to acquisitions and investments;
- adverse effects on our supply chain, shipping costs, customers and suppliers, including as a result of issues caused by natural and weather-related disasters;
- risks related to the Company's information systems;
- general economic and business conditions (domestic and foreign) affecting Avnet's financial performance and, indirectly, Avnet's credit ratings, debt covenant compliance, and liquidity and access to financing; and
- legislative or regulatory changes affecting Avnet's businesses.

Any forward-looking statement speaks only as of the date on which that statement is made. Except as required by law, the Company assumes no obligation to update any forward-looking statement to reflect events or circumstances that occur after the date on which the statement is made.

The discussion of Avnet's business and operations should be read together with the risk factors contained in Item 1A of its Report on Form 10-K for the fiscal year ended June 29, 2013, which describe various risks and uncertainties to which the Company is or may become subject to. These risks and uncertainties have the potential to affect Avnet's business, financial condition, results of operations, cash flows, strategies or prospects in a material and adverse manner. As of September 28, 2013, there have been no material changes to the risk factors set forth in the Company's report on Form 10-K for the fiscal year ended June 29, 2013.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In August 2011, the Company's Board of Directors (the "Board") approved the repurchase of up to \$500.0 million of the Company's common stock through a share repurchase program. During August 2012, the Board approved an additional \$250.0 million for the share repurchase program. With this increase, the Company may repurchase up to a total of \$750.0 million of the Company's common stock under the share repurchase program. The following table includes, if any, the Company's monthly purchases of Avnet's common stock during the first quarter ended September 28, 2013, under the share repurchase program, which is part of a publicly announced plan, and purchases made on the open market to obtain shares for the Company's Employee Stock Purchase Plan ("ESPP"), which is not part of a publicly announced plan:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
July	4,400	\$34.80	_	\$224,475,000
August	4,600	\$38.93	_	\$224,475,000
September	5,500	\$41.61	_	\$224,475,000

<sup>(1)</sup> Consists of purchases of Avnet's common stock associated with the Company's ESPP.

#### CERTIFICATION OF CHIEF EXECUTIVE OFFICER

#### I, Richard Hamada, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Avnet, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as such term is defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
  - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
