Risks	Investing in the notes involves risk. See “Risk Factors” beginning on page S-4 of this prospectus supplement, and in our 2020 Annual Report and in our April 2021 10-Q, each incorporated herein by reference.

RISK FACTORS

An investment in the notes involves risks. You should carefully consider the following risk factors relating to the offering of the notes, including the information under “Risk Factors” in our 2020 Annual Report and in our April 2021 10-Q, before making an investment in the notes. You also should carefully consider any other discussion of risks or uncertainties contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. The information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus includes forward-looking statements that involve risks and uncertainties. See “Forward-Looking Statements” in this prospectus supplement. Avnet’s actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors, including the risks described below and elsewhere in this prospectus supplement. Additional risks and uncertainties not currently known to Avnet or that Avnet currently believes are immaterial also may have a material adverse effect on its business, financial condition or results of operations, or could adversely affect the value of the notes offered by this prospectus supplement.

Avnet’s secured debt has claims with respect to the secured assets that will be structurally senior to those of the notes.

The indenture contains a covenant that restricts the incurrence of certain secured debt, although that restriction is subject to significant exceptions. Avnet’s other debt instruments permit Avnet and its subsidiaries to incur a substantial amount of indebtedness that can be secured by Avnet’s assets. As of April 3, 2021, Avnet had no consolidated secured debt outstanding under its accounts receivable securitization program. Under the securitization program, Avnet may sell on an ongoing basis most of its domestic trade accounts receivables to a bankruptcy remote subsidiary, which, in turn, sells a portion of these receivables to a bank conduit. The designated pool of receivables provides security or collateral for borrowings under the securitization program. The indenture governing the notes does not restrict Avnet’s ability to securitize its receivables.

Avnet’s existing secured debt, and any secured debt it issues in the future, will be structurally senior to the notes to the extent of the value of the assets securing such debt. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding, Avnet’s pledged assets would be available to satisfy obligations of the secured debt before any payment could be made on the notes. To the extent that these assets cannot satisfy in full Avnet’s secured debt, the holders of such secured debt would have a claim for any shortfall that would rank equally in right of payment with the notes. In that event, Avnet may not have sufficient assets remaining to pay amounts due on any or all of the notes.

The claims of creditors of Avnet’s subsidiaries are structurally senior to the claims of Avnet’s equity interests in its subsidiaries.

Avnet’s equity interest in its subsidiaries is subordinate to any debt and other liabilities and commitments, including trade payables and lease obligations, of Avnet’s subsidiaries, whether or not secured. The notes will not be guaranteed by Avnet’s subsidiaries and Avnet may not have direct access to the assets of its subsidiaries unless these assets are transferred by dividend or otherwise to Avnet. As of April 3, 2021, Avnet had \$1.4 million of subsidiary debt outstanding. Most of Avnet’s subsidiary debt is guaranteed by Avnet. Under Avnet’s senior unsecured credit facility, Avnet’s subsidiaries are limited to maximum borrowings of \$500.0 million at any one time outstanding. The ability of the subsidiaries to pay dividends or otherwise transfer assets to Avnet is subject to various restrictions under applicable law. Avnet’s right to receive assets of any of its subsidiaries upon the subsidiary’s liquidation or reorganization is effectively subordinated to the claim of that subsidiary’s creditors. As noteholders’ claims to the assets of Avnet’s subsidiaries are derivative of Avnet’s equity claims in its subsidiaries, the claims of Avnet’s subsidiaries’ creditors are structurally senior to any claims of the noteholders to any assets of Avnet’s subsidiaries and any subsidiaries that Avnet may in the future acquire or establish.

The indenture governing the notes contains limited negative covenants. The limitation on liens and sale and leaseback covenants contain exceptions that would allow Avnet and its subsidiaries to grant liens or security interests with respect to assets that are not Principal Properties, which may render the holders of the notes effectively, structurally or contractually subordinated to new lenders.

The indenture governing the notes includes covenants that, among other things, limit the ability of Avnet and its Restricted Subsidiaries (as defined in the indenture) to create or permit to exist mortgages and other liens on and enter into sale and leaseback transactions with respect to Principal Properties (as defined in the indenture). Avnet is not restricted under the indenture from granting liens or security interests with respect to assets that are not subject to these covenants, or from otherwise incurring secured debt. See the covenants described in this prospectus supplement under “Description of the Notes—Covenants” and the section in this prospectus supplement under “Description of the Notes—Definitions.” Additionally, the indenture provides certain exceptions to the definition of a Principal Property, including if Avnet’s board of directors determines that a property is not of material importance to the total business of Avnet and its consolidated subsidiaries, as an entirety. Although it has not yet done so, under the terms of the indenture, Avnet’s board of directors may determine from time to time after the issuance of the notes that an Avnet property is not a Principal Property and therefore such property is not subject to the covenants in the indenture. This and other exceptions within the limitation on liens and sale and leaseback covenants would allow Avnet and its subsidiaries to borrow substantial additional amounts, and to grant liens or security interests in connection with those borrowings.

An active trading market may not develop for the notes.

The notes are a new issue of securities with no established trading market. The notes will not be listed on any securities exchange. The underwriters have advised Avnet that they presently intend to make a market in the notes as permitted by applicable law. However, the underwriters are not obligated to make a market in the notes and may cease their market-making activities at any time at their discretion without notice. In addition, the liquidity of the trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for securities and by changes in the financial performance or prospects of Avnet and companies in Avnet’s industry generally. As a result, Avnet cannot assure you that an active trading market will develop or be maintained for the notes, in which case the market price and liquidity of the notes may be adversely affected.

The market price of the notes may be volatile.

The market price of the notes will depend on many factors that may vary over time, some of which are beyond Avnet’s control, including:

- Avnet’s financial performance;
- the amount of indebtedness Avnet has outstanding;
- market interest rates;
- the market for similar securities;
- competition;
- the size and liquidity of the markets for the notes; and
- general economic conditions.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the price you paid for them.

The indenture does not restrict the amount of additional debt that Avnet may incur.

The notes and the indenture governing the notes do not limit the amount of unsecured debt that may be incurred by Avnet, permit Avnet to incur secured debt under specified circumstances, and permit Avnet's subsidiaries to incur debt, whether secured or unsecured, without restriction. At April 3, 2021, Avnet had approximately \$1.25 billion in available borrowing under its senior unsecured credit facility. The incurrence of additional debt by Avnet or any of its subsidiaries may have important consequences for noteholders, including making it more difficult for Avnet to satisfy its obligations with respect to the notes, a loss in the market value of the notes and a risk that the credit rating of the notes is lowered or withdrawn.

The indenture and the notes provide only limited protection against significant corporate events that could adversely affect noteholders' investments in the notes.

Although the indenture and the notes contain terms intended to provide protection to holders of notes upon the occurrence of certain events involving significant corporate transactions and Avnet's creditworthiness, these terms are limited and may not be sufficient to protect such holders' investment in the notes. As described under "Description of the Notes—Change of Control," upon the occurrence of a Change of Control Triggering Event (as defined herein), each holder of notes will have the right to require Avnet to repurchase all or any part of such holder's notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date. However, the definition of the term "Change of Control Triggering Event" is limited and does not cover a variety of transactions (such as acquisitions by Avnet, recapitalizations or asset sales not constituting the disposition of "all or substantially all" of Avnet's assets) that could negatively affect the value of the notes. As a result, holders of notes should be aware that the terms of the indenture and the notes do not restrict Avnet's ability to engage in, or to otherwise be a party to, various corporate transactions, circumstances and events that could adversely affect such holders' investment in the notes.

Avnet may be unable to purchase the notes upon a change of control.

Upon the occurrence of a Change of Control Triggering Event, each holder of notes will have the right to require Avnet to repurchase all or any part of such holder's notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date. If Avnet experiences a Change of Control Triggering Event, there can be no assurance that Avnet would have sufficient financial resources available to satisfy its obligations to repurchase the notes. In order to obtain sufficient funds to pay the repurchase price of the outstanding notes, Avnet may need to refinance such notes. Avnet cannot assure you that it would be able to refinance the notes on reasonable terms, or at all. Avnet's failure to repurchase the notes as required under the indenture governing the notes would result in a default under the indenture, which could have material adverse consequences for Avnet and the holders of the notes. See "Description of the Notes—Change of Control."

Noteholders may not be able to determine when a "Change of Control" has occurred giving rise to the right to have their notes repurchased by Avnet following a sale of "all or substantially all" of Avnet's assets.

The "Change of Control" definition applicable to the notes as described under "Description of the Notes—Change of Control" includes a clause relating to the sale, conveyance, transfer or lease of "all or substantially all" of Avnet's assets and the assets of Avnet's subsidiaries taken as a whole. Although there is a limited body of case law interpreting the term "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, a noteholder's ability to require Avnet to repurchase such holder's notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all or substantially all of the assets of Avnet and its subsidiaries, taken as a whole, to another person may be uncertain in some circumstances.

[Table of Contents](#)

Redemption may adversely affect your return on the notes.

The notes will be redeemable at Avnet's option, as described under "Description of the Notes—Optional Redemption" in this prospectus supplement, and therefore Avnet may choose to redeem the notes at times when prevailing interest rates are relatively low. As a result, you may not be able to reinvest the proceeds you receive from the redemption in a comparable security at an effective interest rate as high as the interest rate on your notes being redeemed.

USE OF PROCEEDS

The net proceeds from this offering will be approximately \$295.7 million, after deducting the underwriting discount but before deducting other transaction expenses payable by Avnet. Avnet expects to use the net proceeds from this offering to redeem \$300.0 million in aggregate principal amount of its 3.75% notes, plus accrued and unpaid interest and any premium thereon, and for general corporate purposes. Certain of the underwriters or their affiliates may hold some of the 3.75% notes being redeemed and, accordingly, may receive a portion of the net proceeds of this offering. See “Underwriting ” in this prospectus supplement.

DESCRIPTION OF THE NOTES

The notes will be issued as a series of debt securities under an indenture dated as of June 22, 2010, between us and Wells Fargo Bank, National Association, as trustee. The following description of notes is a summary of material provisions of the notes and the indenture, but does not include all the provisions of the notes and the indenture. We urge you to read the indenture because it fully defines the rights of holders of the notes. You may obtain a copy of the indenture without charge. See “Incorporation by Reference” in this prospectus supplement. Capitalized terms used but not otherwise defined in this section have the meanings assigned to them in the indenture.

The terms of the notes include those set forth in the notes, those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended. The notes are subject to all such terms, and investors are referred to the indenture and the Trust Indenture Act of 1939, as amended, for a statement thereof.

When we refer to “Avnet,” “Avnet, Inc.,” “us,” “we,” or “our” in this “Description of the Notes” section of this prospectus supplement, we refer only to Avnet, Inc., a New York corporation, and not its subsidiaries.

General

The notes will initially be limited to \$300.0 million aggregate principal amount. We may create and issue additional notes of the series of notes offered hereby from time to time without the consent of the then holders of the notes. Any additional notes will be consolidated with, and treated as part of the same series of notes as, the initial notes for all purposes under the indenture, including with respect to voting and redemptions. However, any such additional notes that are not fungible with the notes offered hereby for U.S. federal income tax purposes will have a separate CUSIP, ISIN and/or other identifying number, if applicable, than the notes offered hereby.

The notes will mature on May 15, 2031.

The notes will be issued in registered form only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The notes will be our senior unsecured obligations and will rank equally with our other existing and future senior unsecured indebtedness. The notes will be effectively subordinated to Avnet’s current and future secured indebtedness, including borrowings under Avnet’s accounts receivable securitization program. As of April 3, 2021, Avnet had no secured indebtedness outstanding under its securitization program and \$1,200 million of unsecured senior indebtedness outstanding. In addition, the notes will not be guaranteed by any of our subsidiaries and so will be effectively subordinated to the debt of these subsidiaries with respect to Avnet’s equity interests in the assets of these subsidiaries. The notes also will be subordinated to Avnet’s subsidiary debt. As of April 3, 2021, Avnet had \$1.4 million of subsidiary debt outstanding.

The notes will not have the benefit of any sinking fund.

Interest

The notes will bear interest from May 6, 2021, at the annual rate set forth on the cover page of this prospectus supplement. Interest will be payable semi-annually on May 15 and November 15 of each year, beginning on November 15, 2021, to the persons in whose names the notes are registered in the security register at the close of business on the May 1 and November 1 (whether or not a business day) prior to the relevant interest payment date. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months.

Payment, Exchange and Transfer

Payment of principal of, and premium, if any, and interest on, the notes will be payable, and the exchange of and the transfer of notes will be registrable, at the office of the trustee or at any other office or agency maintained by us for that purpose subject to the limitations of the indenture. We will not require a service charge for any registration of transfer or exchange of the notes, but may require payment of a sum sufficient to cover any tax or other governmental charge.

Optional Redemption

We may redeem the notes, in whole or in part, at our option, at any time and from time to time prior to maturity on at least 10 days', but not more than 60 days', prior notice mailed or sent to the registered address of each holder of the notes. Prior to the Par Call Date (as defined below), the redemption price will be equal to the greater of:

- 100% of the principal amount of the notes to be redeemed; and
- the sum of the present values of the Remaining Scheduled Payments (as defined below), that would be due if the notes matured on the Par Call Date, discounted, on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at a rate equal to the sum of the Treasury Rate (as defined below) plus 25 basis points;

plus, in each case, accrued and unpaid interest, if any, on the notes to the redemption date. The trustee will have no duty to calculate or verify the calculations of any "make-whole" amount.

At any time on or after the Par Call Date, we may redeem all or any part of the notes at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest thereon.

The principal amount of any note remaining outstanding after redemption in part must be \$2,000 or an integral multiple of \$1,000 in excess thereof.

For purposes of the optional redemption of the notes, the following definitions will be applicable:

"*Comparable Treasury Issue*" means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed (assuming, for this purpose, that the notes mature on the Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes.

"*Comparable Treasury Price*" means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (2) if we obtain fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

"*Independent Investment Banker*" means one of the Reference Treasury Dealers appointed by us.

"*Par Call Date*" means February 15, 2031 (three months prior to maturity).

"*Reference Treasury Dealer*" means BofA Securities, Inc. J.P. Morgan Securities LLC, and Wells Fargo Securities, LLC (or their respective affiliates that are primary U.S. Government securities dealers in New York City (each, a "Primary Treasury Dealer")) and one other Primary Treasury Dealer as may be selected from time to time by us. If any of the foregoing ceases to be a Primary Treasury Dealer, we will substitute therefor another Primary Treasury Dealer.

Table of Contents

“*Reference Treasury Dealer Quotations*” means, with respect to each Reference Treasury Dealer and any redemption date prior to the Par Call Date, the average, as determined by us, of the bid and ask prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 3:30 p.m. (New York City time) on the third business day preceding such redemption date.

“*Remaining Scheduled Payments*” means, with respect to each note to be redeemed, the remaining scheduled payments of principal of and interest on the note that would be due after the related redemption date therefor if such note matured on the Par Call Date. If that redemption date is not an interest payment date with respect to a note, the amount of the next succeeding scheduled interest payment on the note will be reduced by the amount of interest accrued on the note to the redemption date.

“*Treasury Rate*” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolation (on a day count basis) of the interpolated Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

In the event that we choose to redeem less than all of the notes, selection of the notes for redemption will be made by the trustee on a *pro rata* basis, by lot or by such method as the trustee deems fair and appropriate, in accordance with DTC’s applicable procedures.

The notice of redemption that relates to any note that is redeemed in part only will state the portion of the principal amount thereof to be redeemed. A new note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original note. On and after the redemption date, interest will cease to accrue on notes or portions thereof called for redemption so long as we have deposited with the paying agent funds in satisfaction of the redemption price.

We may acquire notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the indenture.

Change of Control

If a Change of Control Triggering Event occurs, unless we have exercised our right to redeem the notes as described under “—Optional Redemption,” noteholders will have the right to require us to repurchase all or any part of their notes pursuant to the offer described below (the “Change of Control Offer”) on the terms set forth in the notes. In a Change of Control Offer, we will offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased, to the repurchase date (the “Change of Control Payment”) (subject to the right of holders of record on the relevant record date to receive interest due on the interest payment date). The principal amount of a note remaining outstanding after a repurchase in part must be \$2,000 or an integral multiple of \$1,000 in excess thereof.

Within 30 days following the date upon which the Change of Control Triggering Event has occurred or, at our option, prior to any Change of Control, but after the public announcement of the transaction that may or will constitute a Change of Control, except to the extent that we have exercised our right to redeem the notes as described above, we will cause a notice to be mailed or sent to you with a copy to the trustee describing the transaction or transactions that may or will constitute a Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days, but no later than 60 days from the date such notice is mailed or sent (the “Change of Control Payment Date”). The notice will, if mailed or sent prior to the date of consummation of the Change of Control, state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

[Table of Contents](#)

On the Change of Control Payment Date, we will, to the extent lawful:

- accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- prior to 11:00 a.m. New York City time, deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered pursuant to the applicable Change of Control Offer; and
- deliver or cause to be delivered to the trustee the notes properly accepted together with an officers' certificate stating the aggregate principal amount of notes or portions of notes being purchased by us.

We will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the notes by virtue of such conflicts.

We will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us, and such third party purchases all notes properly tendered and not withdrawn under its offer. In the event that such third party terminates or defaults on its offer, we will be required to make a Change of Control Offer treating the date of such termination or default as though it were the date of the Change of Control Triggering Event.

For purposes of the Change of Control Offer provisions of the notes, the following definitions will be applicable:

"Below Investment Grade Rating Event" means the rating on the notes is lowered by each of the Rating Agencies and the notes are rated below an Investment Grade Rating by each of the Rating Agencies on any day during the period (the "Trigger Period") commencing on the date 60 days prior to the first public announcement by us of any Change of Control or pending Change of Control and ending 60 days following the consummation of such Change of Control (which Trigger Period will be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by any of the Rating Agencies).

"Change of Control" means the occurrence of any of the following:

(1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our properties or assets and of our subsidiaries' properties or assets taken as a whole to any "person" (as that term is used in Section 13(d)(3) of the Exchange Act) other than to us or one of our subsidiaries;

(2) the adoption of a plan relating to our liquidation or dissolution;

(3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" (as defined above) becomes the beneficial owner (as defined in Rule 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the then outstanding number of shares of our Voting Stock measured by voting power rather than number of shares;

(4) we consolidate with, or merge with or into any person, or any person consolidates with, or merges with or into, us, in any such event pursuant to a transaction in which any of our outstanding Voting Stock or the outstanding Voting Stock of such other person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of our Voting Stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the

Table of Contents

Voting Stock (measured by voting power rather than number of shares) of the surviving person immediately after giving effect to such transaction;
or

(5) the first day on which a majority of the members of our board of directors are not Continuing Directors.

“*Change of Control Triggering Event*” means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

“*Continuing Directors*” means, as of any date of determination, any member of our board of directors who (1) was a member of the board of directors on the original issuance date of the notes or (2) was nominated for election, elected or appointed to such board of directors with the approval of a majority of the Continuing Directors who were members of such board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of Avnet’s proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

“*Investment Grade Rating*” means a rating equal to or higher than Baa3 (or the equivalent) by Moody’s and BBB- (or the equivalent) by S&P, and the equivalent rating from any replacement Rating Agency or Rating Agencies.

“*Moody’s*” means Moody’s Investors Service, Inc. and any of its successors.

“*Rating Agencies*” means (1) each of Moody’s and S&P; and (2) if either of Moody’s or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a “nationally recognized statistical rating organization” within the meaning of Section 3(a)(62) of the Exchange Act, selected by us (as certified by a resolution of our board of directors) as a replacement rating agency for Moody’s or S&P, or both of them, as the case may be.

“*S&P*” means S&P Global Ratings, a division of S&P Global Inc., and any of its successors.

The “Change of Control” definition includes a clause relating to the sale, lease transfer, conveyance or other disposition of “all or substantially all” of our assets and the assets of our subsidiaries taken as a whole. Although there is a limited body of case law interpreting the term “substantially all,” there is no precise established definition of this phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and the assets of our subsidiaries taken as a whole to another person may be uncertain in some circumstances.

Covenants

The notes will provide that we will be subject to the following covenants for the benefit of the notes.

Restriction on Secured Debt

Avnet covenants in the notes, for the benefit of the noteholders, that if Avnet or any Restricted Subsidiary after the original issuance date of the notes incurs or guarantees any loans, notes, bonds, debentures or other similar evidences of indebtedness for money borrowed (“Certain Debt”) secured by a mortgage, pledge or lien (“Mortgage”) on any Principal Property of Avnet or any Restricted Subsidiary, or on any share of capital stock or Certain Debt of a Restricted Subsidiary, Avnet will secure or cause such Restricted Subsidiary to secure the notes equally and ratably with (or, at Avnet’s option, before) such secured Certain Debt, unless the aggregate principal amount of all such secured Certain Debt (plus the amount of all Attributable Debt which is not excluded as described below under “—Restriction on Sale and Leaseback Transactions”) would not exceed 10% of Consolidated Net Assets.

Table of Contents

This restriction will not apply to, and there will be excluded from secured Certain Debt in any computation of the above restriction, Certain Debt secured by:

- (a) Mortgages on property (including any shares of capital stock or Certain Debt) of any Person existing at the time such Person becomes a Restricted Subsidiary;
- (b) Mortgages in favor of Avnet or a Restricted Subsidiary;
- (c) Mortgages in favor of governmental bodies to secure progress, advance or other payments;
- (d) Mortgages on property, shares of capital stock or Certain Debt existing at the time of acquisition thereof (including acquisition through merger or consolidation) and purchase money and construction or improvement Mortgages which are entered into within 180 days after the acquisition of such property, shares or Certain Debt or, in the case of real property, within 180 days after the later of:
 - the completion of construction on, substantial repair to, alteration or development of, or substantial improvement to, such property; and
 - the commencement of commercial operations on such property;
- (e) mechanics' and similar liens arising in the ordinary course of business in respect of obligations not due or being contested in good faith;
- (f) Mortgages arising from deposits with, or the giving of any form of security to, any governmental agency required as a condition to the transaction of business or to the exercise of any privilege, franchise or license;
- (g) Mortgages for taxes, assessments or government charges or levies which are not then due or, if delinquent, are being contested in good faith;
- (h) Mortgages (including judgment liens) arising from legal proceedings being contested in good faith;
- (i) Mortgages existing at the original issuance date of the notes; and
- (j) any extension, renewal or refunding of any Mortgage referred to in the clauses (a) through (i) above.

Restriction on Sale and Leaseback Transactions

Avnet covenants in the notes, for the benefit of the noteholders, that Avnet will not itself, and will not permit any Restricted Subsidiary to, enter into any sale and leaseback transaction involving any Principal Property, unless after giving effect thereto the aggregate amount of all Attributable Debt with respect to all such transactions (plus the aggregate principal amount of all secured Certain Debt which is not excluded as described above under “—Restriction on Secured Debt”) would not exceed 10% of Consolidated Net Assets.

This restriction will not apply to, and there will be excluded from Attributable Debt in any computation of the above restriction, any sale and leaseback transaction if:

- the lease is for a period, including renewal rights, of not in excess of three years;
- the sale or transfer of the Principal Property is made within 180 days after its acquisition or within 180 days after the later of:
 - (1) the completion of construction on, substantial repair to, alteration or development of, or substantial improvement to, such property; and
 - (2) the commencement of commercial operations thereon;
- the transaction is between Avnet and a Restricted Subsidiary, or between Restricted Subsidiaries;
- Avnet or a Restricted Subsidiary would be entitled to incur a Mortgage on such Principal Property pursuant to clauses (a) through (j) above under “—Restriction on Secured Debt”; or

Table of Contents

- Avnet or a Restricted Subsidiary, within 180 days after the sale or transfer is completed, applies to the retirement of Funded Debt of Avnet ranking on a parity with or senior to the notes or Funded Debt of a Restricted Subsidiary, or to the purchase of other property which will constitute a Principal Property having a fair market value at least equal to the fair market value of the Principal Property leased, an amount equal to the greater of the net proceeds of the sale of the Principal Property or the fair market value (as determined by Avnet's board of directors) of the Principal Property leased at the time of entering into such arrangement (as determined by the board of directors).

Restriction on Mergers and Consolidations

Avnet covenants in the notes, for the benefit of the noteholders, that it will not consolidate with or merge into any other Person, or sell, convey, transfer or lease all or substantially all of its assets unless:

- Avnet is the continuing entity or the successor Person is a Person organized under the laws of the United States (including any state thereof and the District of Columbia) and assumes by supplemental indenture Avnet's obligations under the notes and under the indenture; and
- after giving effect to such transaction, no default or event of default under the indenture has occurred or is continuing.

Although there is a limited body of case law interpreting the term "substantially all," there is no precise established definition of this phrase under applicable law. Accordingly, in the event the holders of notes attempt to declare an event of default under the indenture and exercise their acceleration rights under the indenture and we contest such action, there can be no assurance of how a court interpreting applicable law would interpret the phrase. It also may be difficult for holders of notes to declare a completed default under the indenture and exercise their acceleration rights.

Definitions

"*Attributable Debt*" means, as to any particular lease, the greater of:

- the fair market value of the property subject to the lease (as determined by Avnet's board of directors); or
- the total net amount of rent required to be paid during the remaining term of the lease, discounted by the weighted average effective interest cost per annum of the outstanding debt securities of all series, compounded semi-annually.

"*Consolidated Net Assets*" means total assets after deducting all current liabilities as set forth in the most recent balance sheet of Avnet and its consolidated Subsidiaries and computed in accordance with GAAP.

"*Funded Debt*" means:

- all indebtedness for money borrowed having a maturity of more than twelve months from the date as of which the determination is made, or having a maturity of twelve months or less but by its terms being renewable or extendible beyond twelve months from such date at the option of the borrower; and
- rental obligations payable more than twelve months from such date under leases which are capitalized in accordance with GAAP (such rental obligations to be included as Funded Debt at the amount so capitalized and to be included as an asset for purposes of the definition of Consolidated Net Assets).

"*GAAP*" means generally accepted accounting principles in the United States of America (including, if applicable, International Financial Reporting Standards) as in effect from time to time.

Table of Contents

“*Person*” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

“*Principal Property*” means any plant, facility or warehouse owned at the original issuance date of the notes or thereafter acquired by Avnet or any Restricted Subsidiary of Avnet which is located within the United States and the gross book value (including related land and improvements thereon and all machinery and equipment included therein without deduction of any depreciation reserves) of which on the date of determination exceeds 2% of Consolidated Net Assets, other than:

- any such manufacturing or processing plant or warehouse or any portion thereof (together with the land on which it is erected and fixtures comprising a part thereof) which is financed by industrial development bonds which are tax exempt pursuant to Section 103 of the Internal Revenue Code, as amended (referred to herein as the “Code”) (or which receive similar tax treatment under any subsequent amendments thereto or any successor laws thereof or under any other similar statute of the United States);
- any property which, in the opinion of our board of directors, is not of material importance to the total business conducted by Avnet and its consolidated Subsidiaries as an entirety; or
- any portion of a particular property which is similarly found not to be of material importance to the use or operation of such property.

“*Restricted Subsidiary*” means a Subsidiary of Avnet (1) substantially all the property of which is located, or substantially all the business of which is carried on, within the United States, and (2) which owns a Principal Property.

“*Subsidiary*” means any corporation or other Person more than 50% of the outstanding Voting Stock (measured by voting power rather than number of shares) of which at the date of determination is owned, directly or indirectly, by Avnet and/or by one or more other Subsidiaries.

“*Voting Stock*” means capital stock (or equivalent equity interests) of a Person of the class or classes having general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of such Person (irrespective of whether or not at the time capital stock (or equivalent equity interests) of any other class or classes has or might have voting power upon the occurrence of any contingency).

Events of Default

The following are events of default with respect to the notes:

- (1) a default in the payment of interest on the notes when it becomes due and payable, and a continuance of such default for a period of 30 calendar days;
- (2) a default in the payment of the principal on the notes when it becomes due and payable;
- (3) a default in the performance, or breach, of any other covenant or warranty in the indenture and the continuance of such default or breach for 90 days after notice; and
- (4) certain events of bankruptcy, insolvency or reorganization.

If an event of default (other than an event of default specified in clause (4) above), occurs and is continuing, either the trustee or the holders of at least 25% in principal amount of the notes of the affected series then outstanding may declare the principal amount of the notes of such series and the accrued and unpaid interest thereon, if any, to be due and payable immediately. If an event of default specified in clause (4) above occurs and is continuing, the principal amount of the notes and the accrued and unpaid interest, if any, thereon will automatically become immediately due and payable without any declaration or other act on the part of the trustee or any holder.

Table of Contents

At any time after a declaration of acceleration with respect to the notes of any series has been made and before a judgment or decree for payment of the money due has been obtained, a majority in principal amount of all the notes of that series may rescind and annul the declaration and its consequences if:

(1) Avnet has paid or deposited with the trustee a sum sufficient to pay:

(a) all overdue installments of interest on the notes of the series;

(b) the principal of and premium, if any, on any notes of the series which have become due otherwise than by acceleration and interest thereon at the prescribed rates, if any, set forth in such notes;

(c) interest on overdue interest (to the extent allowed by law) at the prescribed rates, if any, set forth in such notes; and

(d) all amounts due to the trustee under the indenture, including the reasonable compensation, expenses, disbursements, and advances of the trustee and its agents and counsel; and

(2) any other event of default under the indenture with respect to the notes of that series (other than the nonpayment of principal that has become due solely by declaration of acceleration) has been cured or waived as provided in the indenture.

The indenture provides that the trustee will, within 90 days after the occurrence of a default known to a responsible officer of the trustee, give the affected holders of notes notice of all uncured defaults known to it (the term "default" meaning the events of default specified above without grace periods). However, except in the case of default in the payment of principal or interest on the notes, the trustee will be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the interest of the affected holders of the notes. In addition, the trustee is not required to provide notice of an event of default to the affected holders of notes specified in clause (3) above until at least 30 days after the event of default occurs.

Avnet must furnish to the trustee annually a statement by certain officers of Avnet certifying that there are no defaults, or, if Avnet is in default, specifying all such defaults and the nature and status thereof of which such certain officers of Avnet have knowledge.

The holders of a majority in principal amount of the outstanding notes have the right, with certain limitations, to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the notes, and to waive certain defaults with respect thereto.

The indenture provides that, if an event of default occurs and is continuing, the trustee will exercise its rights and powers under the indenture, and use the same degree of care and skill in exercising the same, as a prudent Person would exercise or use under the circumstances in the conduct of such Person's own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any of the holders of notes unless they have offered to the trustee security or indemnity satisfactory to it against the costs, expenses and liabilities which might be incurred by the trustee in compliance with such request.

Modification of the Indenture and Notes

Without the consent of or notice to any holders of the notes, we and the trustee may modify or amend the indenture or the notes for any of the following purposes:

- evidence the succession of another person to us and the assumption by any such successor of the covenants in the indenture and in the notes;

Table of Contents

- add to the covenants of Avnet for the benefit of the holders of the notes or to surrender any right or power herein conferred upon Avnet;
- add any additional events of default;
- add to or change any of the provisions of the indenture to such extent as may be necessary to permit or facilitate the issuance of notes in bearer form, registrable or not registrable as to principal, and with or without interest coupons, or to permit or facilitate the issuance of the notes in uncertificated form;
- to add to, change, or eliminate any of the provisions of the indenture in respect of one or more series of notes, provided that any such addition, change, or elimination (i) will neither (A) apply to any notes of any series created prior to such addition, change or elimination and entitled to the benefit of such provision nor (B) modify the rights of the holder of any such notes with respect to such provision or (ii) will become effective only when there are no such notes outstanding;
- to establish the form or terms of notes of any series as permitted under the indenture;
- evidence and provide for the acceptance of appointment hereunder by a successor trustee with respect to the notes and to add to or change any of the provisions of the indenture as may be necessary to provide for or facilitate the administration of the trusts hereunder by more than one trustee; or
- cure any ambiguity, to correct or supplement any provision of the indenture or the notes which may be defective or inconsistent with any other provision of the indenture or the notes, or to make any other provisions with respect to matters or questions arising under the indenture or the notes, provided that such action will not adversely affect the interests of the holders of the notes in any material respect.

With certain exceptions, the indenture and the notes may be modified or amended with the consent of the holders of not less than a majority in principal amount of the notes affected by the modification or amendment. However, no such modification or amendment may be made, without the consent of the holder of each note affected, which would:

- change the stated maturity of the principal of the notes;
- reduce the principal amount on the notes or the rate of interest thereon or any premium payable upon the redemption of the notes;
- change any place of payment where, or the coin or currency in which, any note or the interest or any premium thereon is payable;
- impair the right to institute suit for the enforcement of any such payment on or after the stated maturity thereof (or, in the case of a redemption, on or after the redemption date);
- reduce the percentage in principal amount of the notes, the consent of holders of which is required to modify or amend the indenture or the notes, or the consent of the holders of which is required for any waiver (of compliance with certain provisions of the indenture subsection or certain defaults therein and their consequences) provided in the indenture; or
- modify any of the provisions under “—Modification of the Indenture and Notes” or “—Events of Default” above, except to increase the percentage in principal amount of holders required under any such provision or to provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding note affected thereby.

Defeasance and Discharge

The indenture provides that Avnet may elect either (i) to terminate its obligations under the indenture, and will be deemed to have been discharged from, any and all of its obligations in respect of the notes (except for certain obligations to register the transfer or exchange of notes, to replace stolen, lost or mutilated notes, to maintain paying agencies and hold monies for payment in trust and to pay the principal of, and any premium or

Table of Contents

the interest on the notes), which we refer to as legal defeasance, or (ii) to be released from its obligations with respect to certain covenants applicable to the notes, including consolidations and mergers and bankruptcy and insolvency events, and any omission to comply with such obligations will not constitute an event of default with respect to the notes, which we refer to as covenant defeasance.

In order to exercise either legal defeasance or covenant defeasance with respect to any outstanding series of notes issued under the indenture:

- Avnet must have irrevocably deposited or caused to be irrevocably deposited with the trustee, in trust, an amount of money and/or U.S. government obligations (which are defined in the indenture and principally consist of obligations of, or guaranteed by, the United States) or a combination thereof, in each case sufficient, without reinvestment, in the opinion of an independent firm of certified public accountants, to pay and discharge the principal of and any premium and the interest on the notes on the maturity date or on any earlier date on which the notes may be subject to redemption and has given the trustee irrevocable instructions satisfactory to the trustee to give notice to the noteholders of the redemption of the notes, all in accordance with the terms of the indenture and the notes;
- Avnet must deliver to the trustee an opinion of counsel to the effect that the holders will not recognize gain or loss for federal income tax purposes as a result of such legal defeasance or covenant defeasance and will be subject to federal income tax on the same amount, in the same manner and at the same times as would have been the case if such legal defeasance or covenant defeasance had not occurred. In the case of legal defeasance, the opinion must refer to and be based upon a ruling received from or published by the Internal Revenue Service or a change in applicable federal income tax law occurring after the date of the indenture;
- Avnet must deliver to the trustee (i) an officer's certificate to the effect that the notes, if then listed on any securities exchange, will not be delisted solely as a result of such deposit, and (ii) an officers' certificate and an opinion of counsel, each stating that all conditions precedent with respect to such legal defeasance or covenant defeasance have been complied with;
- no default or event of default must have occurred and be continuing and, no default relating to bankruptcy or insolvency must have occurred and be continuing at any time on or before the 90th day after the date of such deposit, it being understood that this condition will not be deemed satisfied until after the 90th day;
- the legal defeasance or covenant defeasance must not cause the trustee to have a conflicting interest within the meaning of the Trust Indenture Act, assuming all notes are in default within the meaning of such Act;
- the legal defeasance or covenant defeasance must not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which Avnet is a party or by which it is bound; and
- the legal defeasance or covenant defeasance must not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended, unless the trust is registered under the Act or exempt from registration.

Depository, Global Notes

Notes will be evidenced by one or more global notes deposited with the trustee as custodian for DTC, and registered in the name of Cede & Co. as nominee of DTC.

Record ownership of the global notes may be transferred, in whole or in part, only to another nominee of DTC or to a successor of DTC or its nominee, except as set forth below. An owner of beneficial interests may hold its interests in the global notes directly through DTC if such owner is a participant in DTC, or indirectly through organizations which are direct DTC participants if such owner is not a participant in DTC. Transfers

Table of Contents

between direct DTC participants will be effected in the ordinary way in accordance with DTC's rules and will be settled in same-day funds. You may also beneficially own interests in the global notes held by DTC through certain banks, brokers, dealers, trust companies and other parties that clear through or maintain a custodial relationship with a direct DTC participant, either directly or indirectly.

So long as Cede & Co., as nominee of DTC, is the registered owner of the global notes, Cede & Co. for all purposes will be considered the sole holder of the global notes. Any notices required to be given to the holders while the notes are global notes will be given only to DTC. Except as provided below, owners of beneficial interests in the global notes:

- will not be entitled to have certificates registered in their names; and
- will not be considered holders of the global notes.

The laws of some states require that certain persons take physical delivery of securities in definitive form. Consequently, the ability of an owner of a beneficial interest in a global security to transfer the beneficial interest in the global security to such persons may be limited.

We will wire, through the facilities of the trustee, payments of principal, any premium and interest in respect of the global notes to Cede & Co., as nominee of DTC, as the registered owner of the global notes. None of us, the trustee or any paying agent will have any responsibility or be liable for paying amounts due on the global notes to owners of beneficial interests in the global notes.

It is DTC's current practice, upon receipt of any payment on the global notes, to credit participants' accounts on the payment date in amounts proportionate to their respective beneficial interests in the notes represented by the global notes, as shown on the records of DTC. Payments by DTC participants to owners of beneficial interests in notes represented by the global notes held through DTC participants will be the responsibility of DTC participants, as is now the case with securities held for the accounts of customers registered in "street name."

Because DTC can only act on behalf of DTC participants, who in turn act on behalf of indirect DTC participants and other banks, your ability to pledge your interest in the notes represented by global notes to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate.

We will issue the notes in definitive certificated form if DTC notifies us that it is unwilling or unable to continue as depository or DTC ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 90 days. In addition, beneficial interests in a global note may be exchanged for definitive certificated notes upon request by or on behalf of DTC in accordance with DTC's customary procedures. We may determine at any time and in our sole discretion that notes shall no longer be represented by global notes, in which case we will issue certificates in definitive form in exchange for the global notes.

Neither we nor the trustee (nor any registrar or paying agent under the indenture) will have any responsibility for the performance by DTC or direct or indirect DTC participants of their obligations under the rules and procedures governing their operations. DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more direct DTC participants to whose account with DTC interests in the global notes are credited and only for the principal amount of the notes for which directions have been given.

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial

[Table of Contents](#)

Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for DTC participants and to facilitate the settlement of securities transactions among DTC participants through electronic computerized book-entry changes to the accounts of its participants, thereby eliminating the need for physical movement of securities certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations, such as the underwriters of the notes. Certain DTC participants or their representatives, together with other entities, own DTC. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through, or maintain a custodial relationship with, a participant, either directly or indirectly.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the global notes among DTC participants, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of us, the trustee or any of either’s respective agents will have any responsibility for the performance by DTC or direct or indirect DTC participants of their obligations under the rules and procedures governing their operations, including maintaining, supervising or reviewing the records relating to or payments made on account of beneficial ownership interests in global notes.

The information in this section concerning DTC and DTC’s book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Euroclear and Clearstream

You may hold interests in the global notes through Euroclear or Clearstream, in each case, as a participant in DTC.

Euroclear and Clearstream will hold interests, in each case, on behalf of their participants through customers’ securities accounts in the names of Euroclear and Clearstream on the books of their respective depositories, which will, in turn, hold such interests in customers’ securities in the depositories’ names on DTC’s books.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems may change their rules and procedures at any time. We have no control over those systems or their participants, and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on the one hand, and other participants in DTC, on the other hand, would also be subject to DTC’s rules and procedures.

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the notes through these systems and wish, on a particular day, to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchase or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

Limited Liability of Certain Persons

The indenture provides that none of our past, present or future incorporators, stockholders, directors, officers or employees, or of any successor corporation or any of our affiliates, shall have any personal liability in respect of our obligations under the indenture or the notes by reason of his, her or its status as an incorporator, stockholder, director, officer or employee. Each holder of the notes, by accepting a note, waives and releases all such liability. Such waiver may not be effective to waive liabilities under the U.S. federal securities laws, and it is the view of the SEC that any such waiver is against public policy.

Governing Law

The indenture and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Information Concerning the Trustee

Wells Fargo Bank, National Association, as trustee under the indenture, has been appointed by us as paying agent and registrar with regard to, and will also serve as DTC's custodian for, the notes. The trustee and/ or its affiliates currently, and may from time to time in the future, provide banking and other services to us. Wells Fargo Securities, LLC, an affiliate of the trustee, is one of the underwriters.

The indenture and provisions of the Trust Indenture Act incorporated by reference in the indenture contain certain limitations on the rights of the trustee, should it become our creditor, to obtain payment of claims, or to realize on certain property received in respect of any claim, as security or otherwise. The trustee and its affiliates may engage in, and will be permitted to continue to engage in, other transactions with Avnet and its affiliates; however, if the trustee acquires any conflicting interest (as defined in the Trust Indenture Act), it must eliminate that conflict or resign. The trustee shall not be responsible for determining whether any Change of Control has occurred and whether any Change of Control Offer with respect to the notes is required. The trustee shall not be responsible for monitoring our rating status, making any request upon any Rating Agency, or determining whether any Below Investment Grade Rating Event has occurred.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

This following discussion summarizes the material U.S. federal income tax considerations relating to the purchase, ownership, and disposition of the notes by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below). This summary does not provide a complete analysis of all potential tax considerations. The information provided below is based on the Code, Treasury regulations issued under the Code, judicial authority and administrative rulings and practice, all as of the date of this prospectus supplement and all of which are subject to change, possibly on a retroactive basis. The tax considerations of purchasing, owning or disposing of notes could differ from those described below. We have not sought, and will not seek, any ruling from the Internal Revenue Service (“IRS”) with respect to the statements made and the conclusions reached in this summary, and we cannot assure you that the IRS will agree with such statements and conclusions.

This summary addresses only holders that purchase notes pursuant to this offering at their issue price, which will equal the first price at which a substantial amount of the notes is sold to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers), and that hold the notes as capital assets within the meaning of Section 1221 of the Code (generally, held for investment).

This summary does not purport to address all aspects of U.S. federal income taxation that might be relevant to particular holders in light of their circumstances or status, nor does it deal with persons in special tax situations, such as financial institutions, insurance companies, “regulated investment companies,” “real estate investment trusts,” partnerships or other pass-through entities, partners in such entities, tax-exempt investors, broker-dealers, traders in securities that elect mark-to-market treatment, U.S. expatriates, U.S. Holders that have a functional currency other than the U.S. dollar, or persons holding notes as a position in a “straddle,” “hedge,” “conversion transaction,” or other integrated transaction.

Further, this discussion does not address the consequences under U.S. alternative minimum tax rules, U.S. federal estate or gift tax laws, the tax laws of any U.S. state or locality, or any non-U.S. tax laws.

If a partnership (or an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds the notes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the notes should consult its tax advisor with regard to the U.S. federal income tax treatment of owning the notes.

THIS DISCUSSION IS FOR GENERAL INFORMATION ONLY. PROSPECTIVE INVESTORS IN THE NOTES ARE URGED TO CONSULT THEIR OWN TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME AND OTHER TAX CONSEQUENCES TO THEM OF ACQUIRING, OWNING AND DISPOSING OF THE NOTES, AS WELL AS THE APPLICATION OF STATE, LOCAL AND NON-U.S. INCOME AND OTHER TAX LAWS.

Certain Additional Payments

In certain circumstances, we may be obligated to pay amounts in excess of stated interest or principal on the notes. For example, upon the occurrence of a Change of Control Triggering Event (as defined under “Description of the Notes—Change of Control”), we will be required to offer to repurchase the notes at 101% of their aggregate principal amount, plus accrued and unpaid interest. The obligation to make such payments may implicate the provisions of Treasury regulations relating to “contingent payment debt instruments” (“CPDI”). One or more contingencies will not cause the notes to be treated as CPDIs if, as of the issue date, each such contingency is (and all such contingencies in the aggregate are) considered remote or incidental or, in certain circumstances, it is significantly more likely than not that such contingency will not occur. We believe and intend to take the position that the potential for additional payments on the notes should not cause the notes to be treated as CPDIs. Our determination is binding on a holder unless such holder discloses its contrary position in the

manner required by the applicable Treasury regulations. Our determination is not, however, binding on the IRS. If the IRS takes a contrary position and such position is sustained, note holders could be required to accrue ordinary interest income on the notes at a rate in excess of the stated interest rate and to treat all or a portion of any gain recognized on a sale or other taxable disposition of a note as ordinary income rather than capital gain. In the event a contingent payment is actually made, such payment could affect the amount and timing of payments that such a holder would recognize for U.S. federal income tax purposes. Prospective investors in the notes should consult their tax advisors regarding the possible application of the CPDI rules to the notes and the consequences thereof. The remainder of this discussion assumes that the notes will not be treated as CPDIs for U.S. federal income tax purposes.

U.S. Federal Income Taxation of U.S. Holders

For purposes of this discussion, you are a “U.S. Holder” if you are the beneficial owner of notes and you are, for U.S. federal income tax purposes:

- an individual citizen or resident of the United States;
- a domestic corporation;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust if (i) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have authority to control all of its substantial decisions or (ii) it has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

Treatment of interest. It is expected and this discussion assumes that either the issue price of the notes will equal the principal amount of the notes or the notes will be issued with no more than a de minimis amount of original issue discount. Stated interest on a note will generally be taxable to a U.S. Holder as ordinary income at the time such interest is received or accrued, depending on the holder’s regular method of accounting for U.S. federal income tax purposes.

Treatment of dispositions of the notes. Upon the sale, exchange, retirement or other taxable disposition of a note, a U.S. Holder will generally recognize taxable gain or loss equal to the difference between (i) the amount realized on such disposition (not including any amount attributable to accrued but unpaid interest, which is treated as interest as described above) and (ii) such holder’s adjusted tax basis in the note. A U.S. Holder’s adjusted tax basis in a note generally will equal the cost of the note to such holder. Any gain or loss recognized on the disposition of a note generally will be capital gain or loss, and will be long-term capital gain or loss if, at the time of such disposition, the U.S. Holder’s holding period for the note is more than one year. Long-term capital gain of non-corporate U.S. Holders is generally taxed at preferential rates. The deductibility of capital losses is subject to limitations.

Net Investment Income Tax. A U.S. Holder that is an individual, trust, or estate is subject to a surtax of 3.8% on the lesser of (1) such U.S. Holder’s “net investment income” (or undistributed “net investment income” in the case of estates or trusts) for the relevant taxable year and (2) the excess of such U.S. Holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual’s circumstances). Among other items, “net investment income” generally includes gross income from interest and net gain attributable to the disposition of certain property, less certain deductions. Prospective investors should consult their tax advisors concerning the possible implications of this net investment income tax in their particular circumstances.

Backup withholding and information reporting Information reporting generally will apply to payments of stated interest on the notes to a U.S. Holder and the proceeds from a sale or other taxable disposition of a note by a U.S. Holder. This obligation, however, does not apply with respect to payments to certain types of U.S. Holders, including corporations, provided that they establish entitlement to an exemption.

[Table of Contents](#)

In the event that a U.S. Holder subject to the reporting requirements described above fails to provide its correct taxpayer identification number in the manner required by applicable law, or underreports its tax liability, Avnet, its agent or paying agents, or a broker may be required to “backup” withhold at the applicable statutory rate on each interest payment on the notes and on the proceeds from a sale or other taxable disposition of the notes. The backup withholding obligation, however, does not apply with respect to payments to certain types of U.S. Holders, including tax-exempt organizations, provided that they establish entitlement to an exemption.

Backup withholding is not an additional tax and may generally be refunded or credited against the U.S. Holder’s U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

U.S. Federal Income Taxation of Non-U.S. Holders

For purposes of this discussion:

- You are a “Non-U.S. Holder” if you are the beneficial owner of notes and you are neither a U.S. Holder nor a partnership for U.S. federal income tax purposes.
- Any interest income and any gain realized on the sale, exchange, retirement or other taxable disposition of a note will be considered “U.S. trade or business income” if such income or gain (i) is effectively connected with the conduct of a trade or business in the United States and (ii) if an income tax treaty with the United States applies, is attributable to a permanent establishment (or in the case of an individual, to a fixed base) in the United States.

Treatment of interest. Subject to the discussion of the Foreign Account Tax Compliance Act (“FATCA”) and backup withholding below, a Non-U.S. Holder will not be subject to U.S. federal income tax (or any withholding thereof) in respect of payments of interest on the notes if each of the following requirements is satisfied:

- the interest is not effectively connected with the conduct of a trade or business in the United States;
- either (i) the Non-U.S. Holder provides the applicable withholding agent with a properly completed IRS Form W-8BEN or W-8 BEN-E (or successor form), or an appropriate substitute form, together with all appropriate attachments, signed under penalties of perjury, identifying the Non-U.S. Holder and stating, among other things, that the Non-U.S. Holder is not a U.S. person, or (ii) if a note is held through a securities clearing organization, bank or other financial institution that holds customers’ securities in the ordinary course of its trade or business, (a) the Non-U.S. Holder provides such a form to the organization or institution (directly or through other intermediate entities) and (b) the organization or institution, under penalties of perjury, certifies to the applicable withholding agent that it has received such a form from the beneficial owner or another intermediary and furnishes the applicable withholding agent with a copy thereof;
- the Non-U.S. Holder does not actually or constructively own 10% or more of the voting power of Avnet’s stock; and
- the Non-U.S. Holder is not a “controlled foreign corporation” (as defined for U.S. federal income tax purposes) that is actually or constructively related to Avnet.

If not all of these conditions are met, a 30% U.S. withholding tax will apply to payments of interest on the notes unless either (i) an applicable income tax treaty reduces or eliminates such tax or (ii) the interest is U.S. trade or business income (as defined above) and, in each case, the Non-U.S. Holder complies with applicable certification requirements. In the case of U.S. trade or business income, the Non-U.S. Holder generally will be subject to U.S. federal income tax with respect to such interest income on a net income basis in the same manner as a U.S. Holder. Additionally, corporate Non-U.S. Holders may be subject to a branch profits tax at a 30% rate (or any lower applicable income tax treaty rate) on such income.

[Table of Contents](#)

Special certification procedures apply to partnerships, trusts and intermediaries. Non-U.S. Holders are urged to consult their tax advisors for information on the impact of these rules.

Treatment of dispositions of the notes. Subject to the discussion of FATCA and backup withholding below, a Non-U.S. Holder generally will not be subject to U.S. federal income tax on any gain recognized upon the sale, exchange, retirement or other taxable disposition of a note unless:

- such holder is an individual present in the United States for 183 days or more in the taxable year of the sale, exchange, retirement or other taxable disposition and certain other conditions are met, or
- the gain is U.S. trade or business income (as defined above).

An individual who is described only in the first bullet point above will be subject to U.S. federal income tax at the rate of 30% (or any lower applicable income tax treaty rate) on any gain recognized, which may be offset by U.S.-source capital losses (even though such individual is not considered a resident of the United States).

In the case of the second bullet point above, the Non-U.S. Holder generally will be subject to U.S. federal income tax on any gain recognized at the applicable U.S. federal income tax rates in the same manner as a U.S. Holder. In addition, a corporation may be subject to a branch profits tax at a 30% rate (or any lower applicable income tax treaty rate) on any such gain that is U.S. trade or business income.

Foreign Account Tax Compliance Act. Sections 1471 through 1474 of the Code and the Treasury regulations issued thereunder (commonly referred to as the Foreign Account Tax Compliance Act, or FATCA) impose a 30% withholding tax on interest paid on the notes to, and (subject to the proposed Treasury regulations discussed below) the gross proceeds derived from the sale or other disposition of notes by, a foreign entity if the foreign entity is:

- a “foreign financial institution” (as defined under FATCA) that does not furnish proper documentation, typically on IRS Form W-8BEN-E, evidencing either (i) an exemption from FATCA withholding or (ii) its compliance (or deemed compliance) with specified due diligence, reporting, withholding and certification obligations under FATCA or (iii) residence in a jurisdiction that has entered into an intergovernmental agreement with the United States relating to FATCA and compliance with the diligence and reporting requirements of the intergovernmental agreement and local implementing rules; or
- a “non-financial foreign entity” (as defined under FATCA) that does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (i) an exemption from FATCA withholding or (ii) adequate information regarding substantial United States beneficial owners of such entity (if any).

Withholding under FATCA generally applies to payments of interest on the notes and to payments of gross proceeds from a sale or other disposition of the notes. Withholding agents may, however, rely on proposed U.S. Treasury regulations that would no longer require FATCA withholding on payments of gross proceeds.

If an interest payment is subject to withholding both under FATCA and the withholding tax rules discussed above under “—Treatment of interest,” the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. In addition, if withholding is required under FATCA on a payment related to the notes, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction (provided that such benefit is available). Prospective investors should consult their tax advisors regarding the effect of FATCA in their particular circumstances.

Backup withholding and information reporting. Payments of interest or proceeds from dispositions of notes may be subject to backup withholding unless the Non-U.S. Holder is able to establish its exemption from

[Table of Contents](#)

backup withholding (generally through the provision of an IRS Form W-8BEN or W-8 BEN-E). Certain information reporting still may apply to interest payments and any tax withheld therefrom even if an exemption from backup withholding is established. Copies of any information returns reporting interest payments and any withholding also may be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder of notes under the backup withholding rules can be credited against any U.S. federal income tax liability of the holder and may entitle the holder to a refund, provided that the required information is timely furnished to the IRS.

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes sold under the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price less a concession not in excess of 0.400% of the principal amount of the notes. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

[Table of Contents](#)

The expenses of the offering, not including the underwriting discount, are estimated at \$800,000 and are payable by us.

New Issue of Notes

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange or for inclusion of the notes in any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

No Sales of Similar Securities

We have agreed that we will not, during the period from the date of this prospectus supplement continuing through the settlement date of the notes, without first obtaining the written consent of BofA Securities, Inc., J.P. Morgan Securities LLC and Wells Fargo Securities, LLC, offer or sell, or publicly announce our intention to offer or sell, any equity or debt securities pursuant to a public offering or any equity or unsecured debt securities pursuant to a private placement in which the purchasers of such equity or debt securities receive customary registration rights, except for the notes sold to the underwriters pursuant to the underwriting agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Certain Relationships

Certain of the underwriters or their affiliates may hold some of the 3.75% notes being redeemed or repurchased and, accordingly, may receive a portion of the net proceeds of this offering. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. In particular, affiliates of J.P. Morgan Securities LLC, and BofA Securities, Inc. act as lenders under our credit facilities. Wells Fargo, National Association, the trustee, is also a lender under our credit facilities and an affiliate thereof is an underwriter.

[Table of Contents](#)

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers.

Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Prospective Investors in the European Economic Area

THE COMPANY

We are a global technology solutions company with an extensive ecosystem delivering design, product, marketing and supply chain expertise for customers at every stage of the product lifecycle. Founded in 1921 and incorporated in New York in 1955, we work with over 1,400 technology suppliers to serve 2.1 million customers in more than 140 countries.

For nearly a century, we have helped our customers and suppliers realize the transformative possibilities of technology while continuously expanding the breadth and depth of our capabilities. Today, as technologies like the Internet of Things (“IoT”) continue to increase the complexity in product development, we assist customers in bringing their products to life. Most recently we have enhanced our expertise in design, supply chain and logistics by acquiring the capabilities to better serve customers in the earlier stages of product development—encompassing research, prototyping and manufacturing—through the purchase of Premier Farnell (fiscal 2017), Hackster.io (fiscal 2017) and Dragon Innovation (fiscal 2018). Our ecosystem is designed to match our customers’ needs along their entire product development journey, providing both end-to-end and à la carte support options, as well as digital tools, to meet varying needs and buying preferences.

Our principal executive offices are located at 2211 South 47th Street, Phoenix, Arizona 85034, telephone (480) 643-2000.

RISK FACTORS

Investing in our securities involves risks. Before you invest in our securities, you should carefully consider the risk factors described in our most recent Annual Report on Form 10-K, in subsequently filed Quarterly Reports on Form 10-Q and in any applicable prospectus supplement, as well as the risks described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and cautionary notes regarding forward-looking statements included or incorporated by reference herein, together with all other information included or incorporated by reference in this prospectus and any applicable prospectus supplement. These risks could materially affect our business, results of operations or financial condition and cause the value of our securities to decline. You could lose all or part of your investment.

USE OF PROCEEDS

Unless the applicable prospectus supplement indicates otherwise, we intend to use net proceeds from the sale of the securities for our general corporate purposes, which may include the refinancing of existing debt, capital expenditures, acquisitions, repurchases of our common stock, and working capital. We may temporarily invest funds that are not immediately needed for these purposes in short-term securities.

DESCRIPTION OF SECURITIES

We will describe the material terms of any securities to be offered in one or more supplements to this prospectus. Debt securities offered under this prospectus will be governed by a document called an “Indenture.” Unless we specify otherwise in the applicable prospectus supplement, the debt securities will be issued under an Indenture, dated as of June 22, 2010, between us and Wells Fargo Bank, National Association, which acts as Trustee. In addition to the material terms of the Indenture described in the applicable prospectus supplement, you are urged to review the Indenture, which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part.

PLAN OF DISTRIBUTION

We may sell the offered securities:

- through underwriters or dealers;
- through agents;
- directly to one or more purchasers; or
- through a number of direct sales or auctions performed by utilizing the Internet or a bidding or ordering system.

We may distribute the securities from time to time in one or more transactions at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to the prevailing market prices or at negotiated prices.

Sale Through Underwriters or Dealers

If we use underwriters or dealers in the sale of offered securities, such underwriters or dealers will acquire the securities for their own account. The underwriters or dealers may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters or dealers to purchase the securities will be subject to certain conditions. The underwriters or dealers will be obligated to purchase all the securities of the series offered if any of the securities are purchased. The underwriters or dealers may change from time to time any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers.

[Table of Contents](#)

Sale Through Agents

We may sell offered securities through agents designated by us. Unless indicated in the applicable prospectus supplement, the agents will agree to use their reasonable best efforts to solicit purchases for the period of their appointment.

Direct Sales

We may also sell offered securities directly to the public. In this case, no underwriters or agents would be involved.

Sale Through the Internet

We may from time to time offer securities directly to the public, with or without the involvement of agents, underwriters or dealers, and may utilize the Internet or another electronic bidding or ordering system for the pricing and allocation of such securities. Such a system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by us, and which may directly affect the price or other terms at which such securities are sold.

Such a bidding or ordering system may present to each bidder, on a real-time basis, relevant information to assist the bidder in making a bid, such as the clearing spread at which the offering would be sold, based on the bids submitted, and whether a bidder's individual bids would be accepted, prorated or rejected. Typically the clearing spread will be indicated as a number of basis points above an index treasury note. Other pricing methods may also be used. Upon completion of such an auction process, securities will be allocated based on prices bid, terms of bid or other factors.

The final offering price at which securities would be sold and the allocation of securities among bidders, would be based in whole or in part on the results of the Internet bidding process or auction. Many variations of Internet auction or pricing and allocation systems are likely to be developed in the future, and we may utilize such systems in connection with the sale of securities. The specific rules of such an auction would be distributed to potential bidders in an applicable prospectus supplement.

If an offering is made using such bidding or ordering system you should review the auction rules, as described in the applicable prospectus supplement, for a more detailed description of such offering procedures.

General Information

Underwriters, dealers and agents that participate in the distribution of the offered securities may be underwriters as defined in the Securities Act, and any discounts or commissions received by them from us and any profit on the resale of the offered securities by them may be treated as underwriting discounts and commissions under the Securities Act. We will identify any underwriters, dealers or agents, and describe their compensation, in the applicable prospectus supplement.

We may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make. Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

VALIDITY OF SECURITIES

The validity of any offered securities will be passed upon for the Company by Michael R. McCoy, Assistant General Counsel of Avnet, Inc. Mr. McCoy is the beneficial owner of shares of our common stock. Certain legal matters with respect to the offered securities will be passed upon for the underwriters, dealers or agents, if any, by their counsel.
